(THIS PAGE LEFT BLANK INTENTIONALLY.)

THE CITY OF NEWPORT, RHODE ISLAND – AMERICA'S FIRST RESORT

December 1, 2006

To the Honorable Mayor, Councilors, and Citizens of the City of Newport, Rhode Island:

State law requires that all general purpose local governments publish within six months of the close of each fiscal year (June 30) a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Newport, Rhode Island as of and for the fiscal year ended June 30, 2006.

This report consists of management's representations concerning the finances of the City of Newport, Rhode Island. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Newport, Rhode Island has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Newport, Rhode Island's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Newport, Rhode Island's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Newport, Rhode Island's financial statements have been audited by Kostin, Ruffkess & Company, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Newport, Rhode Island for the fiscal year ended June 30, 2006, were free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors' concluded, based upon the audit, that there was reasonable basis for rendering an unqualified opinion that the City of Newport, Rhode Island's financial statements as of and for the fiscal year ended June 30, 2006, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Newport, Rhode Island was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Newport, Rhode Island's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Newport, Rhode Island's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Newport, Rhode Island (City), founded in 1639, incorporated in 1784 and re-chartered in 1853, is located at the southern end of Aquidneck Island in Narragansett Bay, about 30 miles southeast of Rhode Island's capital of Providence. The City is bounded by the Atlantic Ocean on the east and south and Narragansett Bay on the west. The City is 11 square miles in size, with 7.7 square miles of land and 3.3 squares miles of inland water. The City has a year-round population of about 27,000, which grows substantially during the summer months. The City is also visited by over 4,000,000 people annually.

The City operates under a Home Rule Charter providing for a council/city manager form of government. There is a seven-member City Council serving two-year terms, headed by its Chairperson, who is elected by the at large City Councilors and also holds the title of Mayor. Four of the Councilors are elected at large and three from voting wards. All legislative powers of the City are vested in the City Council by the Charter, including the ordering of any tax, making appropriations, and transacting any other business pertaining to the financial affairs of the City. The City Council is also responsible for passing ordinances, adopting the budget, appointing committees and hiring the City Manager, City Solicitors, Municipal Judges and Canvassing Clerk. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing all other employees.

An elected seven-member School Committee, all at large and serving two-year terms, is vested with autonomous legislative authority over the public school system. The School Committee appoints the Superintendent of Schools as the chief executive officer for the school system. The school system provides elementary and primary education to City residents and vocational programs to other Newport County residents.

Municipal services include public safety; potable water and wastewater collection, treatment and distribution; solid waste and recyclables collection and disposal; street and sidewalk maintenance; beach, harbor, recreation, tourism and parking operations; and planning, zoning and economic development functions.

The accompanying basic financial statements present the government and its component units. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship is such that exclusion would lead the primary government's financial statements to be misleading or incomplete. The City identifies and includes two component units; the Newport Public Library and the Redevelopment Agency of Newport. Additional information on these agencies can be found in Note I in the notes to the basic financial statements.

The annual budget serves as the foundation for the City's financial planning and control. All departments, the Newport Public Schools and the Newport Public Library are required to submit requests for appropriations to the City Manager by May 14th of each year. The City Manager uses these requests as the starting point for developing a proposed budget. The City manager then presents the proposed budget to the City Council for review no later than 45 days prior to June 30. The Council is required to hold 2 public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, function (e.g. public safety) and department. Department heads may make transfers of appropriations within a department with City Manager approval. Transfers of appropriations between departments, however, require the approval of the City Council. Budget-to-actual comparisons are provided in this report for the general fund and the school unrestricted fund.

Factors Affecting Financial Condition

The information presented in the basic financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local economy

From its early years when commerce involved the whale-oil trade to today's highly sophisticated research in electronic submarine warfare, the seaport has continued to play a vital role in Newport's economy. The U.S. Navy, beginning with the founding of the Naval War College in 1884, influenced the development of the City and continues to do so as one of the major contributors to the local economy.

Newport's location, natural and cultural resources, and sense of history are responsible for the growth of tourism into a primary source of revenue. The third largest economic factor in Newport, the service sector, benefits from both the defense and tourism industries. As the State's principal tourist center and resort community, Newport is visited annually by millions of tourists who attend special events, sail and view the City's mansions and other attractions. The City's popularity has stimulated significant private investment in retail shopping facilities, hotels, timeshare units, restaurants, clubs and other tourist-oriented enterprises.

The personal income per capita in 2005 for Newport County is \$41,158 compared to \$35,219 and \$34,495 for Rhode Island and the United States, respectively. The unemployment rate is 4.2% compared to the state unemployment rate of 5.0%. The median selling price of an existing home in 2005 is \$400,000, an amount that has doubled in 5 years. The City is attracting older retired residents and empty-nesters as well as tourists. The value of property is expected to continue to grow at the rate of 5-15%. The tourist industry remained stable in 2006 and is expected to remain healthy.

Long-term financial planning

The City Council has focused redevelopment efforts in the City's north end with the assistance of federal and state grants, namely a HOPE VI grant to rebuild outdated housing. The Council will continued efforts in this area and will also focus on redeveloping the old naval hospital and some commercial property in the north end. Additional renovation is planned or in progress for the City's downtown historic Washington Square and Long-Wharf area. These renovation and development initiatives include plans to address parking and traffic issues.

Long-term financial planning also includes significant capital renovation and additions in both the Water and Water Pollution Control (sewer) funds in response to new state and federal water quality standards and deteriorating buildings and systems. Cost estimates range from \$50M to \$75M to address these areas. Funds will likely come from a variety of sources including state subsidized revenue bonds, grants, regionalization of facilities and rates.

The current 5-year capital plan includes possible general obligation bond funds to rebuild and repair roadways and sidewalks, in accordance with a pavement management program developed within the last two years. This cost is estimated at about \$12M.

Cash management policies and practices

Temporarily idle cash is invested in government money market funds that are fully collateralized, in certificates of deposit and in U.S. treasury obligations. The maturities of investments range mostly from 1 day to 5 years, with a weighted average maturity of 1.395 months on the certificates of deposit. The average yield on investments was 5% for the City, and 14% for pension funds. The higher rate for the pension funds is attributable to the long-term character of most of its investment holdings. Investment income includes appreciation in the fair value of investments. Increases in fair value during the current year, however, do not necessarily represent trends that will continue; nor is it always possible to realize such amounts, especially in the case of temporary changes in the fair value of investments that the government intends to hold to maturity.

Pension and other postemployment benefits

The City sponsors two single-employer defined benefit pension plans for police and fire employees. Each year, an independent actuary engaged by the pension plans calculates the amount of the annual contribution that the City must make to the pension plans to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the City fully funds each year's annual required contributions to the pension plans as determined by the actuary. The City also fully funds the calculation by the actuary of the annual amortization of the unfunded actuarially accrued liability. The liability is being amortized over a closed 30-year period. The City is in the 26th year (declining to 1). The plans are currently funded at 37% for the fire plan and 59% for the police plan.

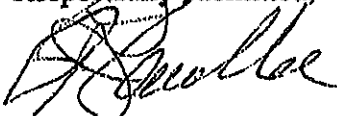

The City also provides pension benefits for its non-public safety employees through a state-wide plan managed by the State Treasurer. The state-hired actuaries determine the funding level and unfunded actuarially accrued liability for each individual participating employer. The City is 79% funded in the State's municipal employees' retirement plan. The State of Rhode Island provides pension benefits to the City of Newport school teachers.

The City also provides postretirement health coverage for all vested retirees, certain dependents and beneficiaries and life insurance benefits to police retirees and teachers. Vesting and participation is determined by bargaining contract and varies by length of employment and type of employment. As of June 30, 2006, 431 retirees were eligible to receive health and life insurance benefits, which are currently financed on a pay-as-you-go basis. The City has received an actuarial calculation of the combined municipal and school liability as of July 1, 2005. That estimate is \$123M. The City Council has approved the formation of a Trust to accumulate assets for the payment of other post-employment benefits in the future. An initial appropriation to the Trust was made in fiscal year 2006. Retiree benefits and various options are currently being studied in order to reduce the liability.

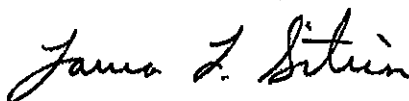

Additional information on the City's pension arrangements and postemployment benefits can be found in Notes IV K. and IV L. in the notes to the basic financial statements.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department. Credit also must be given to the Mayor and City Council for their unfailing support for achieving and maintaining the highest standards of professionalism in the management of the City of Newport's finances.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

Members of City Council
City of Newport, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Newport, Rhode Island, as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Newport, Rhode Island, as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the general fund and school unrestricted fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 1, 2006 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management Discussion and Analysis and Schedules of Funding Progress - Newport Retirement Systems on pages 11 through 20 and pages 74 through 75, respectively, are not a required part of the basic financial statements but are supplementary information required by Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

City of Newport, Rhode Island
Page Two

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Newport, Rhode Island's basic financial statements. The introductory section and the accompanying financial information listed as supplemental schedules in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining fund financial statements and other schedules as listed in the table of contents have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2006

As management of the City of Newport, we offer readers of the City of Newport's financial statements this narrative overview and analysis of the financial activities of the City of Newport for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the Introductory section of this report.

Financial Highlights

- The assets of the City of Newport exceeded its liabilities at the close of the most recent fiscal year by \$150,983,823 (*net assets*).
- The government's net assets increased by \$5,051,132. Governmental activities net assets increased by \$2,101,489 due primarily to increases in real property taxes, a decrease in operating expenses and the recording of the City's Net Other Post-Employment Benefit Obligation. Business-type activities had an increase of \$2,949,643 in net assets due to increased revenues in all of the business-type activities.
- At June 30, 2006, the City of Newport's governmental funds reported a combined ending fund balance of \$23,775,004, an increase of \$717,488 in comparison to the prior year fund balance. Approximately 90% of this amount, \$21,315,803 is available for spending at the government's discretion (unreserved fund balance).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$4,098,720, or 6% of total general fund expenditures and net other financing uses.
- The City of Newport's long-term liabilities net decrease of \$103,454 (.18%) was attributable to the scheduled repayment of debt and the settlement of claims and judgments and to the recording of the City's Net Other Post-Employment Benefit Obligation.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Newport's basic financial statements. The City of Newport's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Newport's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the City of Newport's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Newport is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g, uncollected taxes and earned but unused vacation leave).

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-wide financial statements (continued)

Both of the government-wide financial statements distinguish functions of the City of Newport that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Newport include general government, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities of the City of Newport include water utilities, sewer utilities (water pollution control utilities), parking facilities, harbor facilities and Easton's Beach operations.

The government-wide financial statements include not only the City of Newport itself (known as the primary government), but also a legally separate redevelopment agency and a legally separate public library for which the City of Newport is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on Exhibit A and B of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Newport uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Newport can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Newport maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the school unrestricted fund, the community development act fund, and the capital projects fund, all of which are considered to be major funds. Data from the other nine governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is included on Schedules 3 and 4 of this report.

The City of Newport adopts an annual budget for its general fund and its school unrestricted fund. Budgetary comparison statements have been provided for the general fund and the school unrestricted fund to demonstrate compliance with their budgets.

The basic governmental fund financial statements can be found on Exhibits C and D of this report.

Fund financial statements (continued)

Proprietary funds

The City of Newport maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Newport uses enterprise funds to account for its water operations, water pollution control operations, parking operations, beach operations and its maritime (harbor) operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Newport's various functions. The City of Newport uses an internal service fund to account for its fleet and equipment maintenance operations. Because this fund predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide financial statements .

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water utilities fund and for the water pollution control operation, both of which are considered to be major funds of the City of Newport. The parking operations fund, maritime fund and beach fund are combined into a single, aggregated presentation in the proprietary fund financial statements. The internal service fund is presented separately in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on Exhibit H, I and J of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Newport's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on Exhibits K and L of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on Exhibit M of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Newport's progress in funding its obligation to provide pension benefits to its employees.

The combining statements referred to earlier in connection with nonmajor governmental funds and proprietary funds are presented immediately following the required supplementary information on pensions.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Newport, assets exceeded liabilities by \$150,983,823 at the close of the most recent fiscal year.

By far the largest portion of the City of Newport's net assets (84%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City of Newport uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Newport's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Newport's Net Assets

	Governmental activities		Business-type activities		Total	
	2006	2005	2006	2005	2006	2005
Current and other assets	\$ 45,825,875	\$ 38,572,008	\$ 11,425,768	\$ 10,305,308	\$ 57,251,643	\$ 48,877,316
Capital assets	63,693,736	60,837,980	102,496,444	102,415,667	166,190,180	163,253,647

An additional portion of the City of Newport's net assets (11%) represents resources that are restricted by external parties.

The City's net assets increased by \$5,051,132 during the current fiscal year. This increase is primarily due to the degree to which increases in ongoing revenues have outstripped increases in ongoing expenses.

Governmental Activities

Governmental activities net assets increased by \$2,101,489. A comparison of FY2006 and FY2005 activity can be found on the next page which indicates increases in property tax revenue of \$1,976,804 and in charges for services of \$1,134,179. Property tax revenue increased because of an increase in the tax rates of 4.15%. Tax revenues were budgeted to increase by approximately \$3,800,000, however tax revenues while increased from last year, were about \$2,000,000 less than anticipated due primarily to timeshare tax settlements. Charges for services increased due to an increase of approximately \$400,000 in parking ticket and rescue service fees. Parking ticket fines were increased in FY2006. Charges for services also increased by 150,000 in special detail fees due to an increase in rates and by \$460,000 in building and building related permits. The City increased permit fees in the middle of FY2005 and has received a full year of permit fees at the new rates. Expenses actually increased in total by \$1,773,754. Significant factors in this increase was the recording of the City's Net Other Post-Employment Benefit Obligation (OPEB) of \$4,235,568 and the recording of expenses related to Teachers' retirement plan contributions recognized in the School Unrestricted Fund for contributions made by the State on-behalf of the City's teachers of \$1,157,934. Eliminating the effect of the OPEB expense and the on-behalf payment, expenses decreased by approximately 3,500,000 with all of it attributable to general government expenses. The City administration implemented a freeze during the last two months of the fiscal year on all expenses except for those that were absolutely necessary.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-wide Financial Analysis (continued)

Governmental Activities (continued)

This led to a reduction in general government departmental expense of about \$500,000, and allowed most other departmental expenses to remain about the same as last year. There were additional reductions in self-insurance and salary reserves for contract settlement of close to \$1,000,000, and reductions in claims and judgments of \$1,800,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

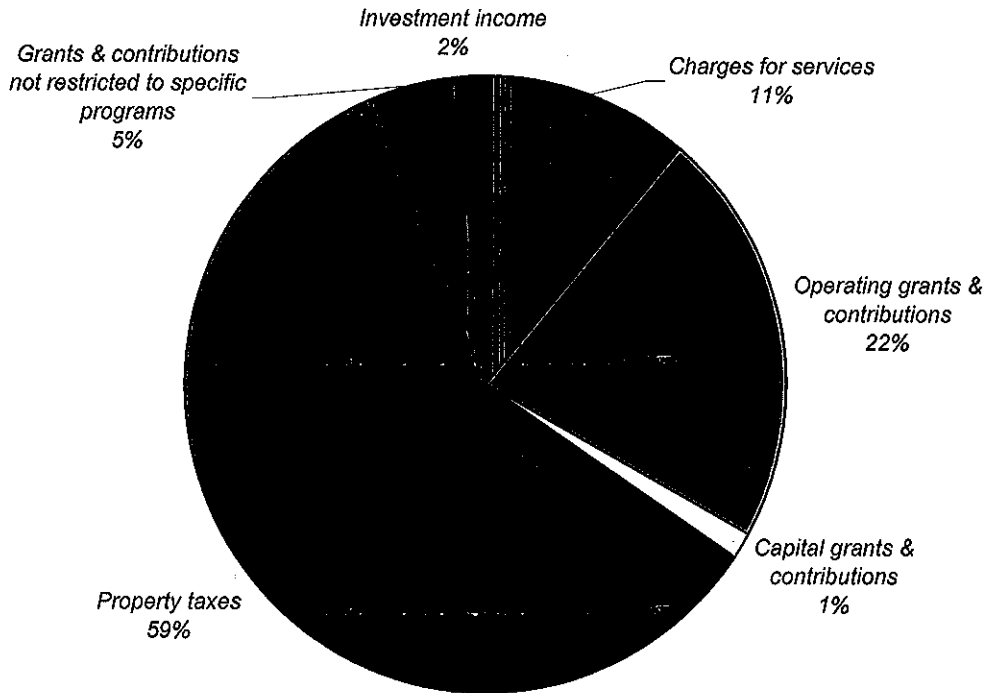

Government-wide Financial Analysis (continued)

Business-type activities

Business-type activities net assets increased by \$2,949,643. Most of the increase (\$1,675,000) is due to an increase in water rates of 20.48% effective in January 2006. The Parking Fund received \$361,000 in federal revenue for Gateway Center renovations; a phase-in of revenue to the new Maritime Fund was completed in FY2005 leading to an increase of \$180,000 of revenue in that fund; and the Water Pollution Control Fund received a full year of industrial pretreatment fees and increased revenues from the Navy and Middletown due to increased usage for a total of \$575,000.

The Water Fund had net income of \$2,368,775 for the year ended June 30, 2006, the Water Pollution Control Fund had a slight deficit of \$277,033 and the non-major proprietary funds had net income of \$857,901 with all individual funds showing a net income.

Expenses and Program Revenues - Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City of Newport uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the City of Newport's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Newport's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Newport's governmental funds reported combined ending fund balances of \$23,775,004, an increase of \$717,488 in comparison with the prior year fund balance. Most of this total amount (\$21,315,803) constitutes unreserved fund balance, which is available for spending at the City's discretion or in accordance with grant and donor restrictions. The remainder of fund balance (\$2,459,201) is reserved to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders of the prior period.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (continued)

Governmental funds (continued)

The General Fund is the operating fund of the City of Newport. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$4,098,720, while total fund balance was \$5,355,148. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures and operating transfers out. Unreserved fund balance represents 6% of total General Fund expenditures and operating transfers, while total fund balance represents 8% of that same amount.

The fund balance of the City of Newport's General Fund increased by \$310,143. The City Council budgeted an addition to fund balance in FY2006 of \$1,500,000. In actuality, only \$310,143 is the addition to fund balance. This is due to significant tax settlements (\$1.5 million for timeshares) which reduced tax revenues and settlement of the police contract with an accrual for retroactive pay. The reduction in tax revenues was partially offset by reduced expenditures in order to meet revised revenue estimates. Money has been appropriated in the FY2007 budget to restore fund balance to a higher level. Key factors in this year's operations are as follows:

An increase in the property tax rate (4.15%) was anticipated to increase tax revenues by \$3,000,000 over prior year's actual property tax revenue. Property tax revenue was higher than FY2005, but \$2,500,000 less than budgeted. The lower revenues resulted from the settlement of tax claims with about \$1,500,000 abated to timeshares. This shortfall was offset by expenditure savings of close to \$2,000,000 with most of that coming from savings in self-insurance and salary reserves.

The school unrestricted fund had an increase in fund balance of \$1,319,744. The increase was due to lower than expected spending in the categories of salaries and benefits for support staff and substitutes, in lower than anticipated spending for purchased professional and technical services, and in special education tuitions.

Proprietary funds

The City of Newport's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water Fund at the end of the year amounted to a deficit of (\$2,236,892), an addition of \$2,990,218 to unrestricted fund balance in FY2006 resulting from an increase in rates.

Unrestricted net assets of the Water Pollution Control Fund at the end of the year amounted to (\$1,303,534), for the parking operations \$4,407,287, for the Maritime Fund \$381,319 and for the Easton's Beach operation \$51,913. The total growth in net assets for the Water Fund was \$2,368,775, for the Water Pollution Control Fund a loss of \$277,033, for the parking operations \$564,785, for the Maritime Fund \$233,168 and for Easton's Beach \$59,948. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Newport's business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were due to budgetary carryovers from fiscal year 2005 of \$1,159,119, a Council approved increase to expenditures of \$457,666 as a transfer to the OPEB Trust Fund, and a Council approved reduction in expenditures of \$345,500 in response to a mid-year projected shortfall in revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (continued)

Capital Asset and Debt Administration

Capital Assets

The City of Newport's investment in capital assets for its governmental and business-type activities as of June 30, 2006 is \$166,190,180 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and systems, machinery and equipment, vehicles, infrastructure and construction in progress. There was a total increase in the City of Newport's combined investment in capital assets for the current fiscal year of 2.0%. Individually, governmental activities had a 4.7% increase and business-type activities had a 1% increase.

Major capital asset events during the current fiscal year included the following:

- \$1,612,183 was spent on road reconstruction and repairs.
- \$509,119 was spent on repairs to City owned buildings, and \$634,162 was spent on parks and recreation facilities improvements and upgrades.
- \$2,305,918 of additions were made to water infrastructure, mains, buildings and pump stations.
- \$728,405 in renovations were made to parking facilities, primarily the Gateway Center. \$361,000 of these were funded with federal grant monies.

Additional information on the City of Newport's capital assets can be found in Exhibit M IV C.

Long-term debt

At the end of the current fiscal year, the City of Newport had total bonded debt outstanding of \$38,907,582. Of this amount, \$27,368,534 comprises debt backed by the full faith and credit of the government. The remainder of the City of Newport's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (continued)

Capital Asset and Debt Administration (continued)

Long-term debt (continued)

The City of Newport's total bonds decreased by \$3,172,656 (7.5%) during the current fiscal year due to scheduled repayments.

The City of Newport maintains an "Aa3" rating from Moody's for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may have outstanding to 3% of its assessed property values. The current debt limitation for the City is \$107,804,171, which is significantly in excess of the City's outstanding general obligation debt.

Additional information on the City of Newport's long-term debt can be found in Exhibit M Note IV E of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the City of Newport is currently 4.7%, which is an increase of 1% from a rate of 3.7% a year ago. This compares favorably to the state's average unemployment rate of 5.5% and is about equal with the national average rate of 4.6%.
- The occupancy rate of the government's central business district has remained at 99% for the past three years.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the City of Newport's budget for the 2007 fiscal year.

Unreserved fund balance in the General Fund at June 30, 2006 is \$4,098,720, which is lower than the City's fiscal policy of maintaining 10% of total General Fund expenditures and operating transfers out as a reserve. The City of Newport has appropriated \$1,000,000 of next year's revenues to put back into fund balance.

The Water Pollution Control Fund's rates did not change for the 2007 budget year. The Water Fund rates are controlled and set by the Rhode Island Public Utilities Commission. The City has not requested a rate increase for FY2007 as of this date, although a rate filing is being prepared.

Requests for Information

This financial report is designed to provide a general overview of the City of Newport's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Laura Sitrin, City of Newport, 43 Broadway, Newport, Rhode Island 02840.

AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET ASSETS ARE DIFFERENT BECAUSE:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds. Internal service funds are used by management to charge the cost of fleet maintenance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. Some liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds (Note II).

NET ASSETS OF GOVERNMENTAL ACTIVITIES

\$ 58,465,176

CITY OF NEWPORT, RHODE ISLAND

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2006

AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES
 ARE DIFFERENT DUE TO:

Net Change in Fund Balances-Total Governmental Funds	\$ 717,488
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	2,875,318
Reductions in deferred revenue that provide current financial resources to governmental funds are not reported as revenues in the Statement of Activities.	608,099
Some expenditures requiring the use of current financial resources in governmental funds were previously accrued in the Statement of Activities and are not expenses this year.	972,032
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(4,235,568)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. The amount is the net effect of these differences in the treatment of long-term debt and related items.	<u>1,164,120</u>
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	<u>\$ 2,101,489</u>

CITY OF NEWPORT, RHODE ISLANDNOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the City of Newport, Rhode Island (the City) have been prepared in conformity with accounting principles generally accepted in the United States as applicable to governmental entities. In certain circumstances, summaries of the City's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

A. Reporting Entity

The City was founded in 1639, incorporated under the laws of the State of Rhode Island in 1784 and re-chartered in 1853. The City is governed by a home rule charter which provides for a Council/City Manager form of government. Legislative authority is vested in a seven-member City Council, of which four are elected at large and three from voting wards. The Mayor is chosen by council members from among its four at-large members. A seven-member School committee, all elected at large, is vested with autonomous legislative authority over the public school system. Members of both the City Council and School Committee are elected to non-partisan biennial terms.

The City Manager is appointed by the Council and serves as the chief executive officer over all municipal services excepting those performed by the Solicitor, Canvassing Authority, and municipal judges, each of whom is appointed by and reports directly to the Council. Municipal services include public safety; potable water and wastewater collection, treatment and distribution; solid waste collection and disposal; street and sidewalk maintenance and operations which support economic and residential development, open space preservation and State law and City code enforcement.

The Superintendent of Schools, appointed by the School Committee, is the chief executive officer for the school system. The school system provides elementary and primary education to City residents and vocational programs to other Newport County residents.

The accompanying financial statements present the government and its component units. In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the City applied the criteria prescribed by Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units." A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely Presented Component Units**Newport Public Library**

Incorporated under Rhode Island law in 1869, the Newport Public Library (the Library) provides free educational and reference resources to residents of the City as well as other patrons. The Library is governed by a Board of Trustees, which must be composed of at least nine and no more than fifteen members, one of whom is a member of the City Council. Operations of the Library are primarily financed through an appropriation from the City's General Fund. Complete financial statements for the Library may be obtained from its business office on 300 Spring Street, Newport, RI 02840.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

Redevelopment Agency of Newport

The Redevelopment Agency (the Agency) was created and organized as a legally separate public body under the Rhode Island Community Redevelopment Act of 1949 pursuant to the Housing Act of 1949, which charged it with fostering public and private rehabilitation and redevelopment projects in blighted areas within the City. The Agency is governed by its five members who are appointed by the City Council. Officers are elected from among these members. Furthermore, the City exerts significant control over its functions since the Agency is empowered to act in areas only after appropriate designation by the Council. Separate financial statements for the Agency are not issued.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major enterprise funds are reported in separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Agency Funds have no measurement focus but are accounted for using the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *School Unrestricted Fund*, a special revenue fund, is the school's primary operating fund. This is a special revenue fund because the revenue sources are legally restricted to educational expenditures. It accounts for all financial resources of the school, other than those specifically restricted by the provider for certain uses.

The *Community Development Block Grant Fund* (CDBG fund) is a special revenue fund, whereby the City receives federal funding to promote specific types of community and economic development. Funds can only be spent in accordance with a legally binding grant agreement.

The *Capital Projects Fund* accounts for the acquisition of fixed assets or construction of major capital projects other than those financed by proprietary funds.

The City reports the following major proprietary funds:

The *Water Fund* records the costs of collection and treatment of raw water and the distribution of potable water for user consumption and fire protection. The City's water system directly serves retail users throughout Newport and in parts of two neighboring towns. The water fund also provides water to the United States Naval Base and customers of a neighboring water and fire district through wholesale contracts. Costs of servicing the users are recovered through both fixed and commodity charges under tariffs regulated by the Rhode Island Public Utilities Commission.

The *Water Pollution Control Fund* records the costs of collection and treatment of wastewater, the extraction and treatment of sludge and the discharge of treated effluent. These costs are recovered from the retail customers through rates assessed on their metered water charges and from contractual agreements with the United States Naval Base and a neighboring town.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Additionally, the City reports the following fund types:

Special Revenue Funds account for revenue sources that are legally restricted to expenditures for specific purposes.

The *Debt Service Fund* accounts for resources accumulated and payments made for principal and interest on a qualified zone (QZAB) bond, the proceeds of which were used to help finance the construction and renovation of Thompson Middle School.

The *Internal Service Fund*, a proprietary type fund, is used to account for fleet management services provided to other departments of the government on a cost reimbursement basis.

The *Enterprise Funds* are used to account for those operations that are financed and operated in a manner similar to private business, primarily through user charges.

The *Private-Purpose Trust Fund* is used to account for resources legally held in trust for use by outside individuals, trusts or organizations to provide awards and scholarships in accordance with a donor's specific instructions or criteria.

The *Permanent Funds* are used to account for resources legally held in trust for specific functions, normally provided by governments. In most cases, only the earnings on the principal can be spent.

The *Pension Trust Fund* accounts for the activities of the Police Retirement Fund and the Fire Retirement Fund, which accumulate resources for pension benefits to qualified police and fire employees.

The *OPEB Trust Fund* accumulates resources for future retiree health benefits and retiree life insurance benefits for eligible teachers and police retirees.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. Agency funds include student activity funds and two community groups that exist for purposes normally provided by the City.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and enterprise fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule include fees for services provided by one fund to another fund, annual lease payments for vehicles paid to the capital projects fund, and other charges between the City's water and water pollution control (sewer) function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, the water pollution control fund, the parking fund, the beach fund, and the City's internal service fund are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Assets or Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's deposits are subject to certain State and municipal restrictions. Under Rhode Island general laws, depository institutions must insure deposits of the City or pledge eligible collateral equal to 100% of deposits maturing in greater than 60 days. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of maturities. The City Council has further enacted restrictions which essentially limit short-term investments to U.S. Treasuries or debt instruments issued by agencies of the U.S. Government or certificates of deposit less than or equal to the amount covered by FDIC or FSLIC. Maturities of these instruments are required to be matched to any underlying liabilities.

Investments

Investments of the City, as well as its component units, are reported at fair value. The City accounts for the carrying value of investments by utilizing the specific identification method. Fair value is determined by the last reported bid price on the last business day of the year. The City participates in a cooperative investment pool that operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

The City Council restricts both the type and maturity of instruments in which City assets, other than those of fiduciary funds and deferred compensation plans, may be invested. Acceptable investments include certificates of deposit, debt instruments issued by the U.S. Treasury and agencies of the Federal government, or high grade municipal securities. Maturities must be matched to meet the underlying obligations for which invested proceeds were collected. The authority for investing fiduciary assets is vested with a commission appointed by and accountable to the City Council.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Assets or Equity (Continued)

2. Receivables and Payables

a. Interfunds

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" or "advances to/from other funds." All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

b. Property Taxes and Other Receivables

All property tax receivables, user fees receivables and notes receivable are shown net of an allowance for uncollectibles. The property tax receivable allowance at June 30, 2006, is equal to 64% of outstanding property taxes. Other allowances vary depending on the nature of the receivable and the history of collections.

Taxes are levied each July 1 on (a) the full and fair value of real and tangible personal property owned within the City the previous December 31; and (b) the value, as determined by the Rhode Island Vehicle Valuation Commission, of vehicles registered within the City the previous calendar year, prorated for the actual number of days so registered. Taxes are levied for the year commencing on that date, payable in equal quarterly installments on the fifth days of August, November, February and May. Taxes are considered overdue on the 6th day of each quarter and are assessed penalties and will be collected through the sale of tax titles if required. The City has a tax lien on the property as a matter of law on the date the roll is certified, which is December 31 of the previous year.

Rhode Island general laws restrict the City's ability to increase either its total tax levy or its tax rates by more than 5.5% over those of the preceding year.

3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in, first-out (FIFO) method of valuation.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

4. Restricted Assets

Certain proceeds of the water pollution control fund's revenue bonds are classified as restricted assets on the statement of net assets because they are maintained in separate escrow accounts maintained by trustees in accordance with the bond covenants. These include a debt service reserve and capitalized interest.

The water fund has classified cash on the balance sheet as restricted since, by order of the Rhode Island Public Utilities Commission, it may only be used for debt service, capital, electricity, certain specified retiree/new hire benefits, repayment of a loan to the general fund or chemical expenditures.

Endowment funds held by the city for various purposes are restricted to expenditure of the investment income only for the purposes designated by the various donors.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Assets or Equity (Continued)

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as machinery and equipment with an initial, individual cost of more than \$10,000, land or building improvements of more than \$20,000 and infrastructure of more than \$25,000, and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

The value of both governmental and business-type activities infrastructure is fully reported and depreciated as applicable.

Property, plant and equipment of the City, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40 - 125
Building improvements	20 - 40
Water & Sewer improvements	20 - 50
Water & Sewer infrastructure	50 - 100
Infrastructure	75
Equipment and other capital assets	6 - 30

6. Compensated Absences

City and school employees are allowed under various labor agreements and by City ordinance to accumulate earned but unused vacation and sick leave. The City reports a liability based on the various provisions as follows:

- Supervisory (Nonunion); Supervisory (NEA); AFSCME-City; Fire employees:
 maximum sick leave accrual is 960 hours
 maximum sick leave payout is 65% up to \$7,500 - \$25,000 if 10 years service
 maximum vacation accrual and payout is 200-300 hours
- Police:
 maximum vacation accrual and payout is 400 hours
 sick leave payout of 65% of accumulated leave up to 2,000 hours and 45% over 2,000 hours

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

6. Compensated Absences (Continued)

- Teachers:
sick leave payout of 25% of number of days in excess of 50 and up to a maximum of 165
- AFSCME – School:
maximum vacation accrual of 40 days; all accumulated payable upon separation
maximum sick leave accrual of 225 days; payout 30% of days greater than 60 and less than 123

All vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. The current portion of the leave is determined based on historical and current usage. The current and non-current portion is recorded in the government-wide financial statements. The entire amount is reported as current in the proprietary fund financial statements.

7. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums paid on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, expenditures for judgments and claims are recorded on the basis of settlements reached or judgments entered within the current fiscal year. In the government-wide financial statements, the estimated liability for all judgments and claims is recorded as a liability.

8. Fund Equity and Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Reserved fund balances in the governmental funds balance sheet are reserved for encumbrances. Designations of fund balance represent tentative management plans that are subject to change.

9. Comparative Data/Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental funds balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net assets - governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this difference are as follows:

Bonds payable	\$20,621,283
Claims and judgments	1,004,374
Compensated absences	7,317,629
Net pension benefit obligation	5,091,759
Net other post-employment benefit obligation	4,235,568
Accrued interest payable	<u>286,836</u>
Net adjustment for long-term liabilities not due and payable in the current period	<u>\$38,557,449</u>

Other long-term assets are not available to pay for current period expenditures and therefore are deferred in the funds

:

Net pension asset	\$ 5,609,772
Deferred property taxes	6,891,851
Allowance for doubtful accounts	(5,683,086)
Property tax interest accrual	<u>2,618,161</u>
Net adjustment for long-term assets not available in the current period	<u>\$ 9,436,698</u>

Another element of the reconciliation explains that “Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.” The details of this difference are as follows:

Capital assets as of July 1, 2005, net of accumulated depreciation	\$60,837,980
Capital assets of internal service funds account for in the	
Net assets adjustment for internal service funds	(56,065)
Current year capital outlay	5,067,402
Disposition of assets	(119,456)
Depreciation expense	<u>(2,092,190)</u>
Net adjustment for capital assets	<u>\$63,637,671</u>

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**A. Budgets and Budgetary Accounting**

A budget is adopted for the General and School Unrestricted Funds on the modified accrual basis with the exception that encumbrances are treated as budgeted expenditures in the year of the commitment to purchase.

In accordance with the City Charter, the City Manager must present to the Council a recommended annual budget for the operations of all municipal departments no later than 45 days prior to the commencement of each fiscal year. The recommended budget must include an appropriation to fund mandated contractual obligations in excess of school anticipated revenues. The Council may amend recommended municipal appropriations but not those of the school. The budget must be adopted by ordinance by the last Council meeting prior to the new fiscal year.

- Budgets are adopted on a legally enacted budgetary basis, which differs from generally accepted accounting principles (GAAP) in that budgetary expenditures for goods and non-employment services are recognized when legally binding orders referred to as encumbrances are placed.
- In addition to limits enforced by the budget ordinance, the City Charter further restricts the incurrence of municipal expenditures or expenses to budgeted revenues at the fund level. The City Manager must periodically review revenues and reduce annual appropriations sufficiently to cover any shortfalls in budgeted revenues.
- Costs of operations for all departments established within the City Charter must be appropriated through an annual budget ordinance. These departments are presented within the General Fund and the School Unrestricted Fund.
- Municipal budgetary control is legally enforced at the department level.
- Appropriation transfers between departments require approval by five of the seven-member Council. Other appropriation increases require both the establishment of a funding source and passage of a budget amendment ordinance.
- Intra-departmental transfers of municipal appropriations may be made with the approval of the City Manager.
- Unencumbered and unexpended appropriations lapse at fiscal year-end. School budgetary control is legally enforced only at the unrestricted fund level; inter-departmental transfers may be made without School Committee approval.

B. Budgetary-GAAP Reporting Reconciliation

The General Fund Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budgetary Basis) in the financial statements presents comparisons of the legally adopted budget with actual data on a budgetary basis. The budgetary basis differs from GAAP because the budgetary basis includes encumbrances that are not recognized under GAAP.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

B. Budgetary-GAAP Reporting Reconciliation (Continued)

A reconciliation of revenues, expenditures, and fund balance between the accounting treatment required by GAAP (Exhibit D), and budgetary requirements (Exhibit F), is as follows:

	<u>General Fund</u>	
	<u>Expenditures</u>	<u>Fund Balance</u>
Balance, Budgetary Basis, Exhibit F- June 30, 2006	\$ 43,744,684	\$ 4,098,720
Encumbrances outstanding at June 30, 2006 charged to budgetary expenditures	(1,256,428)	1,256,428
Balance, GAAP Basis, Exhibit D - June 30, 2006	<u>\$ 42,488,256</u>	<u>\$ 5,355,148</u>

	<u>School Unrestricted Fund</u>		
	<u>Revenues</u>	<u>Expenditures</u>	<u>Fund Balance</u>
Balance, Budgetary Basis, Exhibit G- June 30, 2006	\$ 13,138,868	\$ 34,984,372	\$ 1,654,121
Encumbrances outstanding at June 30, 2006 charged to budgetary expenditures		(60,503)	60,503
Teachers' retirement on-behalf payment	1,157,934	1,157,934	
Balance, GAAP Basis, Exhibit D - June 30, 2006	<u>\$ 14,296,802</u>	<u>\$ 36,081,803</u>	<u>\$ 1,714,624</u>

C. Excess of Expenditures Over Appropriations

The legal level of control for which expenditures cannot exceed appropriations is at the category level within a department. The table below shows the amounts by which certain municipal department expenditures exceeded fiscal year 2006 appropriations (after approved transfers) and, where applicable, actual 2006 revenues:

<u>Department</u>	<u>Expenditures in excess of budget</u>
Police department	\$ 433,773
General fund transfers to other funds	528,410
School unrestricted fund transfers to other funds	173,251

The School Restricted Fund includes the school lunch program, which has a deficit of \$358,489 at June 30, 2006, which will need to be funded with additional charges for services or by transfers.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

D. Donor Restricted Endowments

The City has received endowments for various purposes including beautification, elderly care and care for the poor. The amounts are reflected in net assets as restricted for endowments. Investment income is approved for expenditure by the City Council and is included in unreserved fund balance. Investment income, including appreciation of \$823,606 is approved for disbursement by the City Council.

E. Deficit Fund Balance

The State Grants Fund had a deficit fund balance of \$272,217 as of June 30, 2006. This deficit will be funded with additional state revenues or by transfers.

IV. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

Cash and Cash Equivalents (Deposits)

As of June 30, 2006, the City had the following deposits:

	<u>Bank Balance</u>	<u>Carrying Amount</u>	
Cash	\$ 7,216,414	\$ 3,502,672	Bank Deposits
Money Market Funds	1,240,099	1,240,099	U.S. Treasuries AAA Rated
Repurchase Agreements	3,178,311	3,178,311	Mature July 1, 2006 and invested In Federal Home Loan Mortgages
2a7 Investment Pool	<u>2,832,660</u>	<u>2,832,660</u>	Fully Collateralized
	<u>\$ 14,467,484</u>	<u>\$ 10,753,742</u>	

Rhode Island Public Laws require that 100% of public deposits in a qualified public depository with maturities greater than sixty (60) days are collateralized with either bank segregated assets, in a trust department or in custodial accounts at a federal reserve bank or federal home loan bank. Further, any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of maturities. The City Council further restricts deposits and short-term investments (less than 3 months) to insured or collateralized cash accounts, U.S. Treasuries, debt instruments issued by agencies of the U.S. Government or Certificates of Deposit less than or equal to the amount covered by Federal Deposit Insurance Corporation (FDIC) limits. The City Council also requires that certificates of deposits in excess of FDIC limits and any repurchase agreements are collateralized in amounts of at least 102% of the market value of the deposit. The 2a7 Investment pool is regulated and managed by the State of Rhode Island.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Cash and Investments (Continued)

Cash and Cash Equivalents (Deposits) (continued)

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits might not be received. At June 30, 2006, the City's deposits are not exposed to custodial risk since most of the above deposits are collateralized at 102% with assets held either in trust or by a third party bank in U.S. Government Agencies (FNMA) or Federal Home Loan Mortgages held in the City's name, and the remaining deposits are insured by FDIC.

Investments Other Than Fiduciary Funds and Permanent Funds

Investments (other than fiduciary funds listed separately) at June 30, 2006, consist of the following:

<u>Investment Type</u>	<u>Amount</u>	<u>Weighted Average Duration</u>	<u>Credit Risk Rating</u>
Money Market Funds (All collateralized)	\$ 3,992,308	N/A	AAA
Fixed Income Mutual Funds	510,006	6.2	BBB
Federal Home Loan Notes (Interest rate risk is slight due to short maturity date)	599,514	7 days	AAA
Certificates of Deposit*	<u>7,533,904</u>	1.153 yrs.	N/A
	<u>\$ 12,635,732</u>		

*All insured by FDIC except for \$436,000. Six certificates (\$586,000) are callable, have step rate increases and mature between 2009 and 2018; it is not assumed the certificates will be called although it is likely. Weighted average maturity drops to .638 if those certificates are removed from the pool. The City intends to hold all certificates until maturity, although they are subject to interest rate risk in the event that they are sold prior to maturity.

The State of Rhode Island does not have any pertinent laws on investments that apply to municipalities. The City Investment Policy requires that at least 90% of investments shall at any time be invested in U.S. Treasury or Agency securities, top grade (AAA, AA and A or those with bond insurance) municipal securities, certificates of deposit backed by collateral consisting of U.S. Treasuries or Agencies or covered by FDIC or FSLIC insurance, and repurchase contracts backed by collateral consisting of U.S. Treasuries or Agencies and delivered to the City or held by an independent third party. The policy also allows for investment in uncollateralized Certificates of Deposit of Rhode Island banks. The policy further restricts investments with a maturity of greater than one year to 10% of total investments or \$2,000,000, whichever is lower. The City currently has \$1,933,000 invested in Certificates of Deposit, which have maturity dates of greater than one year.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Cash and Investments (Continued)

Fiduciary and Permanent Funds

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets. A separate investment policy exists as these assets are invested for long-term growth and/or to meet specific funding targets. The policy identifies the asset allocation plan and objectives developed by the Commission. The absolute objectives are to achieve growth in the principal value of assets while maintaining a level of stability and liquidity sufficient to ensure the timely payment of obligations, and to achieve the target rate of return as defined by the actuarial rate of return, currently 8.25% per year net of investment expenses, over a full market cycle defined as 5 to 7 years. The policy is used to inform investment managers, consultants and custodians of the Commission's goals, objectives, and restrictions. The policy is also designed to identify and mitigate performance risk. Investments are not restricted to any particular type of investment. The investment managers are held to certain performance standards as compared to an appropriate national index. The current asset allocation plan sets minimum, maximum and target percentages of assets. Equity Large Cap is targeted at 38% of total assets, Fixed Income is targeted at 35%, International Equity at 15%, Equity Mid Cap at 7% and Equity Small Cap at 5%. The Large Cap Value and Large Cap Growth performances are benchmarked against the Russell 1000 Value and Russell 1000 Growth, respectively. The Mid Cap performance is benchmarked against the Russell Mid Cap Index. The Small Cap is compared to the Russell 2000 Growth, the International Equity to the MSCI EAFE and the Fixed Income to the Lehman Brothers Aggregate. Further, the Commission instructs managers to invest the equity portion of the portfolio so as to prevent the returns from underperforming the equity index in any three consecutive quarters. At this point in time, most of the funds are invested in mutual funds. In that case, the managers are subject to the mutual fund prospectus. The assets are rebalanced quarterly as needed.

Fiduciary and Permanent Fund Investments include the following as of June 30, 2006:

Merrimac Treasury Plus Money Market	\$ 1,459	AAA rated Money Market Mutual Fund
Loomis Sayles Investor Tr Fixed Income	3,281,533	BBB with average effective duration 6.2

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Cash and Investments (Continued)

Fiduciary and Permanent Funds (Continued)

All fixed income investments consisting of the above investments in Loomis Sayles, PIMCO and Western Asset Core Plus are in mutual funds.

Custodial credit risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The following City investments are held by the counterparty's trust department or agent but not in the City's name and therefore are subject to custodial credit risk.

	TOTAL	LESS INSURED AMOUNTS	AMOUNT SUBJECT TO CUSTODIAL CREDIT RISK
Equity mutual funds	\$ 50,590,780	\$ 500,000	\$ 50,090,780
Fixed income mutual funds	23,137,414	500,000	22,637,414
Common stock	945		945
TOTAL	<u>\$ 73,729,139</u>	<u>\$ 1,000,000</u>	<u>\$ 72,729,139</u>

Component Units

Cash and Cash Equivalents

Library

The Library assumes levels of custodial credit risk for its cash deposits and cash equivalents. Custodial credit risk is the risk that, in the event of a bank failure, the Library's deposits may not be returned to it. Cash deposits and cash equivalents are exposed to credit risk if they are not covered by depository insurance and the deposits are a) uncollateralized, b) collateralized with securities held by the pledging financial institution, or c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Library's name. The Library does not have a deposit policy for custodial risk.

At June 30, 2006, \$21,690 of the Library's bank balances of \$421,690 was uninsured and uncollateralized.

Redevelopment Agency of Newport

The Redevelopment Agency of Newport's cash deposits are held and managed by the City of Newport on behalf of the Redevelopment Agency. The disclosure for cash and cash equivalents described above for the City include all deposits held on behalf of the Redevelopment Agency.

CITY OF NEWPORT, RHODE ISLAND

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Cash and Investments (Continued)

Investments

Library

The Library assumes levels of custodial credit risk for its investments. Custodial credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Library's Board of Directors restricts both the type and maturity of instruments in which Library assets may be invested. Acceptable investments include certificates of deposit, debt instruments issued by the U.S. Treasury and agencies of the federal government, or high-grade municipal securities.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment in a debt instrument. The Library does not have a policy as it related to interest rate risk.

At June 30, 2006, the Library's investments consist of the following:

TYPE OF INVESTMENT	FAIR VALUE	INVESTMENT MATURITIES (IN YEARS)		
		N/A	LESS THAN 1	1-5 YEARS
Money Market Funds	\$ 6,927	\$ 6,927	\$	\$
Equity Mutual Funds	386,267			386,267
Mutual Bond Funds	31,723			31,723
TOTAL	\$ 424,917	\$ 6,927	\$ -	\$ 418,010

The Libraries investments in fixed income mutual funds and bond mutual finds had average ratings as follows by Standard & Poor's.

AVERAGE RATING	BOND MUTUAL FUNDS	MONEY MARKET MUTUAL FUND
AAA	\$ 31,723	\$
AA		6,927
TOTAL	\$ 31,723	\$ 6,927

Custodial credit risk - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Library will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The following Library investments are held by the counterparty's trust department or agent but not in the City's name and therefore are subject to custodial credit risk.

	TOTAL	LESS INSURED AMOUNTS	AMOUNT SUBJECT TO CUSTODIAL CREDIT RISK
Equity mutual funds	\$ 386,267	\$ 386,267	\$ -
Mutual bond funds	31,723	31,723	-

2. Advances

	CORRESPONDING FUND	ADVANCES TO OTHER FUNDS	DESCRIPTION
Major Funds			
General Fund			
	Water Fund	\$ 1,500,000	Loan repayment
	Eastons Beach Fund	<u>300,620</u>	Loans for beach repairs/activities
Total advances to other funds		<u>\$ 1,800,620</u>	

The Urban Development Grant Fund (UDAG) loaned the City of Newport \$1,000,000 for Easton's Beach renovations in July 1994, which amount is recorded as a liability in the Easton's Beach Fund, a nonmajor proprietary fund. The note is a 15-year note bearing interest at 4.0%. The balance due at June 30, 2006 is \$269,908. The UDAG fund loaned the City of Newport \$33,047 to remove seaweed from Easton's Beach. The note is a 15-year note bearing interest at 1.0%. The balance due at June 30, 2006 is \$30,712.

The following schedule details amounts to be paid per year on the notes:

Year ending June 30,	Easton's Beach Renovations		Easton's Beach Seaweed		Combined Principal
	Principal	Interest	Principal	Interest

2017-2020	-	-	9,217	233	9,217
	<u>\$ 269,908</u>	<u>\$ 19,270</u>	<u>\$ 30,712</u>	<u>\$ 2,366</u>	<u>\$ 300,620</u>

3. Transfers

A summary of interfund transfers for the year ended June 30, 2006 is as follows:

Transfers To:

Governmental Funds:

School unrestricted fund	\$ 23,041,396
Capital projects fund	2,972,300
School restricted fund	415,000
School restricted fund	173,251
School unrestricted fund	236,600
Debt service fund	133,110
General fund	400,000
Capital projects fund	<u>323,871</u>

TOTAL \$ 27,695,528

Transfers From:

General Fund
General Fund
General Fund
School Unrestricted Fund
Capital Projects Fund
General Fund
Non major - property acquisition fund
UDAG Fund

Transfers are used to account for the financing by the general fund, the various programs and activities in other funds.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

E. Changes in Long-Term Obligations

The City issues general obligation, Qualified Zone Academy Bonds (QZAB) and revenue bonds to provide funds for the acquisition and construction of major capital facilities. Bonds have been issued for both governmental and business-type activities.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. These bonds are generally issued as 20-year serial bonds. Revenue bonds are obligations that pledge the revenues derived from the use of services in that particular fund. These are issued for business-type activities and are generally collateralized by the asset under construction or renovation. The bonds are usually issued as 20-year bonds. The QZAB bond is a 12-year bond, which is supported by annual sinking fund payments to a third-party escrow agent. Changes in bonded debt outstanding during fiscal year 2006 are summarized on the next page as follows:

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

E. Changes in Long-Term Obligations (Continued)

The City has \$13,000,000 of State Revolving Fund (SRF) revenue anticipation bonds issued in April 2002 available to fund sewer improvements, all of which have been drawn down. The amounts drawn down include \$894,371 of debt service reserve, which is held in trust by JP Morgan Trust. The stated interest rate is 4.79%; however, due to interest subsidies, the City's effective rate is 1.907%.

The City has a \$2,337,000 General Obligation Qualified Zone Academy Bond, Series 2001 dated December 14, 2001, due December 14, 2015, which was used to help finance the construction of Thompson Middle School. The bond may not be prepaid prior to the maturity date. The City is required to make annual sinking fund installments of \$133,110 with the trustee, which will be invested with the bank (purchaser of the bond). The total amount to be deposited into the sinking fund is \$1,863,536. The City is responsible for ensuring that the entire \$2,337,000 is repaid. Therefore, if the sinking fund payments plus investment earnings are insufficient to cover the \$2,337,000, the City will be responsible for the balance due. Current fair market value of the sinking fund is \$511,451, which amount is reported in the debt service fund, a nonmajor governmental fund.

Bonded indebtedness on June 30, 2006 matures over fiscal years through 2023 as follows:

Year ending June 30,	Governmental Activities		Business-type Activities	
	Principal	Interest	Principal	Interest
2007	\$ 1,204,311	\$ 834,581	\$ 1,954,695	\$ 408,410
2008	1,187,425	790,126	1,818,464	350,680
2009	1,224,266	746,188	1,794,056	305,399
2010	1,237,114	700,635	1,774,207	259,450

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

F. Notes Payable

1. Business-type Activities

In October 2005, the City Water Pollution Control Fund borrowed \$210,000 from Earthtech to provide fire alarm system upgrades required by the Rhode Island State Fire Code. The note is to be repaid over 5 years at an interest rate of 8.0%. The balance of the note at June 30, 2006 is \$183,581.

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>
2007	\$ 37,525	\$ 12,327
2008	40,640	10,457
2009	44,013	7,084

2011	13,737	280
	<u>\$ 183,581</u>	<u>\$ 33,579</u>

Component Units

2. Library

In 2001, the Library Association received a \$175,000 interest-free loan from the city of Newport for parking lot renovations. The loan is payable in annual installments of \$8,750 through 2011. The following is a summary of changes in long term debt of the Library Association.

Business-type activities:	BALANCE			BALANCE	DUE WITHIN
	JULY 1, 2005	ADDITIONS	REDUCTIONS	JUNE 30, 2006	ONE YEAR
Notes payable	\$ 140,000	-	\$ 8,750	\$ 131,250	\$ 8,750

	<u>\$ 269,870</u>	<u>\$ 56,233</u>	<u>\$ 8,750</u>	<u>\$ 317,353</u>	<u>\$ 8,750</u>

3. Redevelopment Agency

In 1984, the Redevelopment Agency of Newport, a component unit, purchased a vacant building in an area of the City designed for redevelopment. As part of the financing for this purchase, the State of Rhode Island loaned the Redevelopment Agency \$200,000. The underlying note bears no stated interest rate or maturity and is secured with a mortgage on the building. As of June 30, 2006, \$200,000 was payable. The note is required to be paid only upon the sale of the building.

H. Operating Leases

The City leases certain office equipment under multi-year agreements that are subject to annual appropriation. Additionally, the Water Fund assesses the General Fund an annual lease charge of \$324,800 for providing a public fire protection system owned by the Water Fund pursuant to tariffs mandated by the Rhode Island Public Utilities Commission. For the year ended June 30, 2006, the General Fund incurred expenditures of \$324,800 associated with these agreements. Under new rates approved by the Rhode Island Public Utilities Commission, the minimum annual lease obligations of the General Fund related to these agreements are \$396,900 until such time as the Rhode Island Public Utilities Commission approves a rate change.

I. Statutory Debt Limitations

Rhode Island General Laws cap the amount of each municipality's general obligation bonds that may be outstanding to 3% of its assessed property values. Exceptions apply to bonds financed from non-tax revenues and special exemptions are granted for other purposes as well. The assessed value of Newport properties at December 31, 2005 was \$3,593,472,358, limiting the amount of non-expected general obligation bonds outstanding to \$107,804,171. Bonds of \$20,621,283 outstanding at June 30, 2006 are general obligations and subject to the statutory limitation.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

A. Risk Management

Through its operations, the City is exposed to various risks of loss related to torts, general liability, errors and omissions, and property losses due to theft, damage, or destruction, each of which is insured through a public entity risk pool; and to employee injuries and claims for unemployment, for which the City retains the risk of loss. Terms of collective bargaining agreements also require the City to assume risks of employee financial losses resulting from health and dental catastrophes and death, each of which the City has transferred to commercial insurers.

The City is a member of the Rhode Island Inter-local Risk Management Trust (the Trust), a non-profit public entity risk pool which provides insurance coverage to participants in exchange for an annual premium and a pro-rata share of certain administrative expenses. Coverage is provided in accordance with each member's policy, subject to deductibles, through a pooling of risks among participants, supplemented by commercial reinsurance for excess losses. Management believes the Trust's reserves to be adequate to meet all reported claims, as well as an estimate of potential claims for losses incurred but not reported. Accordingly, no accrual has been made for potential liabilities arising from risks once they have been transferred to the Trust.

The City maintains \$2,000,000 of liability insurance per incident and insures property for replacement cost. Settled claims have not exceeded coverage through the Trust in any of the past three years.

The City is in the process of self-insuring certain properties for all or a portion of flood insurance. The following list details the replacement cost of the building and/or contents:

Fully Self-insured:

Property	Building Value	Contents/Other Value	Total Value
America's Cup Parking Garage	\$ 2,905,700	\$	\$ 2,905,700
Cardine's Field Restrooms	165,995		165,995
Cardine's Field Storage Building	13,889		13,889
Easton's Beach Storage Building	70,834		70,834
Eisenhower Park Structures		53,800	53,800
King's Park Restrooms	95,116		95,116
Long Wharf Harbormaster Shed	29,743	4,051	33,794
Easton's Beach Rotunda/Carousel	2,300,887	461,426	2,762,313
Gateway Center	2,905,700		2,905,700
Convention Center Canopies	826,548		826,548
	\$ 9,314,412	\$ 519,277	\$ 9,833,689

Remaining properties are fully or partially insured through the National Flood Insurance Program or through the Trust. Deductibles for the National Flood Insurance Program are either \$2,000 or \$50,000. The exposure of partially insured properties is \$50,184,487 less \$10,000,000 per member annual aggregate. Most of the exposure is for the City's wastewater treatment plant (\$44,900,000). The City has not yet established reserves and believes that the risk of flood damage to all of the self-insured or partially insured properties at any one time is minimal.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. Pension Plans

All eligible employees of the City are covered by one of four pension plans, the Employees' Retirement System of the State of Rhode Island (Teachers' Plan), the Municipal Employees' Retirement System of the State of Rhode Island (Municipal Plan), the Firemen's Pension Plan and the Policemen's Pension Plan. The Teachers' Plan covers all School Department personnel certified by the Rhode Island Department of Education who are or have been engaged in teaching as a principal occupation. The Municipal Plan covers all employees not covered under the Teachers' Plan. However, fire employees and police officers have elected to participate in a single-employer pension plan administered by the City. The Firemen's Pension Plan and Policemen's Pension Plan cover all employees covered under a collective bargaining agreement either with the International Association of Firefighters, Local 1080 or the Fraternal Order of Police, Lodge Number 8. Total covered payroll under all plans during 2006 was \$35,685,973. Total City payroll was \$44,477,296 for the same period.

1. Teachers' Plan

a. Plan Description

The Teachers' Plan is a statutory, mandatory, statewide, cost-sharing multiple employer public employee retirement system administered by the State. Financial statements for the plan are issued separately and may be obtained by writing to Employees' Retirement System of Rhode Island, 40 Fountain Street, Providence, Rhode Island, 02903 or by calling (401) 222-2203. Total covered payroll under the plan during 2006 was \$17,154,581, including \$1,138,706 of federally reimbursed payroll.

b. Plan Provisions

Participants' rights to pension benefits become fully vested after 10 years of service. Participants vested by July 1, 2005, are eligible to retire after 10 years of service if they have attained age 60, or after 28 years of service regardless of age. Participants vested after July 1, 2005, are eligible to retire after 10 years of service if they have attained age 65, or at age 59 with 29 years of service. Benefits for those vested by July 1, 2005, are equal to 1.7% of final average salary for each of the first 10 years of service, 1.9% for each of the next 10 years, 3% for each of the next 14 years thereafter, and 2% for the 35th year, resulting in a maximum benefit of 80% of final average salary. Benefits for those vested after July 1, 2005, are equal to 1.6% of final average salary for each of the first 10 years of service, 1.8% for each of the next ten years, 2% for each of the next 5 years and 2.25% of the next 5 years and 2.5% for years 31-37, resulting in a maximum benefit of 75% of the final average salary. Final average salary is computed using the highest three consecutive years of base earnings. Retirees' benefits are subject to a 3% compounded annual cost of living increase, commencing on the January 1st following the third anniversary of an employee's retirement, if vested before July 1, 2005. For those retirees vested after July 1, 2005, a cost of living increase, which is the lesser of 3%, or the Consumer Price Index for all Urban Consumers as of September 30 of the prior calendar year compounded annually, will be applied beginning the month after the third anniversary of the retirement date. The plan also provides pre-retirement benefits at a minimum of 17% of salary for non-occupational disabilities after 5 years of service, and at 67% of salary for occupational disabilities regardless of service. Surviving spouses are also eligible for both pre- and post-retirement death benefits with minimum amounts established under varying circumstances.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. Pension Plans (Continued)

1. Teachers' Plan (Continued)

c. Funding Policy

Rhode Island general laws set the contribution rates of participating employees at 9.5% of salary. Annual required contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as a percentage of participants' payroll. The required contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1985 over 30 years; and (c) interest on the unfunded frozen actuarial liability. Normal cost is determined using the entry age normal cost method with frozen initial liability. The City participates in the optional Teachers Survivor Benefits Fund whereby both the employer and the employee contribute 1% of the first \$9,600 of each participating employee's salary for survival benefits.

As prescribed by Rhode Island general law, the State pays the entire portion of the annual required contribution attributable to the costs of contributions deferred by the State in prior years, plus 40% of contributions assessed to employers on payroll not reimbursable through federal programs. For fiscal year 2006, actuarial required contributions were 16.47% of participant salary (also 16.47% for federally reimbursed salary). This resulted in a contribution rate paid by the State on behalf of City teachers of 6.75%. The City's contribution rate was 9.72%. The City's required and actual contributions to the Teachers' Plan for fiscal years 2006, 2005 and 2004 were \$1,566,716, \$1,570,475 and \$1,623,585, respectively.

2. Municipal Plan

a. Plan Description

The Municipal Plan is an agent multiple employer public employee retirement system administered by the State. Financial statements for the plan are issued separately and may be obtained by writing to the Employees' Retirement System, 40 Fountain Street, Providence, Rhode Island, 02903-1854 or by calling (401) 222-2203. For fiscal year 2006, payroll for employees covered under the plan totaled \$12,847,080.

Participants' rights to pension benefits become fully vested after 10 years of service. They are also eligible to retire after 10 years of service if they have attained age 58 or after 30 years of service regardless of age. Benefits are equal to 2% of final average salary for each year of service, with a maximum benefit of 75% of final average salary. Final average salary is computed using the highest three consecutive years of base earnings, exclusive of overtime. Retiree benefits are adjusted annually by 3% compounded to allow for cost of living increases under an optional benefit provision adopted by the City.

The plan also provides pre-retirement benefits at a minimum of 20% of salary for non-occupational disabilities after 5 years of service, and at 67% of salary for occupational disabilities regardless of service. Surviving spouses are also eligible for both pre- and post-retirement death benefits with minimum amounts established under varying circumstances.

As of June 30, 2006, 308 active employees were members of the Municipal Plan.

 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. Pension Plans (Continued)

2. Municipal Plan (continued)

b. Funding policy

Rhode Island general laws set contributions of participating employees at 6% of salary. An additional 1% of salary is assessed to employees under the optional cost-of-living provision. Annual required contributions are actuarially determined for each separate employer and are assessed to each as a percentage of their participating employees' payroll. The annual required contribution covers normal costs and, where applicable, a payment to amortize the unfunded actuarial accrued liability as of July 1, 1988, over a closed period of 25 years (or over 25 from date joined if after July 1, 1988). Normal cost is determined using the entry age normal cost method. Unlike in the Teachers' Plan, the State makes no contributions to the Municipal Plan on behalf of the City, nor does it assume any liability for funding pension benefits for the City's participants.

c. Annual Pension Costs and Net Pension Obligations

The following table summarizes annual pension costs and actual contributions for the plan for the past three years. There was no net pension obligation during the three-year period.

	2006	2005	2004
Annual pension costs	\$ 1,629,038	\$ 1,310,576	\$ 1,057,778
Actual contributions:			
Employee	712,884	576,210	697,114
Employer	916,154	734,366	360,664
Percent of annual pension costs contributed	100%	100%	100%

d. Actuarial Methods and Significant Assumptions

The State used the entry age normal method to determine both the actuarial accrued liabilities and annual required contributions to each member of the plan. Pension assets are valued at their fair value as established by quotations from applicable national securities exchanges. Valuations of accrued liabilities, pension assets, and annual required contributions for the Municipal Plan are performed annually as of June 30.

Significant actuarial assumptions used in each valuation are summarized as follows:

Asset appreciation:	8.25% annually
Salary increases:	3.00% annually
Cost of living adjustments:	3.00%, not compounded

Retirement probability:
 100% at age 70 or upon eligibility (100% at age 60 or upon eligibility - police)

Disabled members – PBGC Table Va for disabled members eligible for Social Security disability benefits

Disability: Probabilities ranging from .05% at age 25 to .71% at age 60

3. **Firemen's Pension Plan and Policemen's Pension Plan**

a. **Plan Description**

The City has separately established the Firemen's Pension Plan (Fire Plan) and the Policemen's Pension Plan (Police Plan). Each is a single-employer defined benefit pension plan which provides retirement, disability and death benefits to its participants. For fiscal year 2006, covered payroll under the plans was \$4,827,849 and \$4,757,611 for the fire and police plans, respectively. Each plan is reported as a pension trust fund in the City's fiduciary fund net assets. A separate report on these pension plans is not available; they are audited as part of the City's audit.

Rights to pension benefits become fully vested for fire and police participants after 10 years of service. Police are eligible to retire after 20 years of service, and firemen are eligible to retire after 25 years of service. Police benefits are equal to 50% of salary with an additional 2.5% for each year of service after 20 years and up to 25 years of service, with the total benefit not to exceed 62.5% of salary. Police retirees who work more than 25 years are entitled to an additional 1.5%, with the total benefit not to exceed 70% of salary. The fire pension plan entitles retirees to benefits equal to 65% of salary for those who retire at 25 years. The percentage increases by 1% per year until the maximum of 70% of salary is attained. An additional \$100 per year can be earned for each year of service in excess of 25, to a maximum of \$1,000 per year.

Pre-retirement benefits at a minimum of 25% and 50% of salary are provided to disabled fire and police participants, respectively. However, fire employees are eligible for an additional 2.5% of salary for each year of service in excess of 10 years until a maximum benefit of 62.5% of salary is attained. Surviving spouses under both plans are also eligible for pre-retirement death benefits of 67.5% of salary, subject to a pro-rata reduction for participants having fewer than 20 years of service.

b. **Summary of Significant Accounting Policies and Plan Asset Matters**

1. **Basis of Accounting**

The pension trust fund financial statements are prepared on the accrual basis of accounting. Revenues (contributions and investment income) are recognized when they are earned and expenses (benefits and administration) are recognized when they are due and payable in accordance with terms of the plan.

Funding Policy

Under terms of their collective bargaining agreements, firefighters and policemen are required to contribute 8% of salary to their respective pension plans. For funding purposes, the City divides the membership of each pension plan into two groups, one composed of current and former employees hired prior to July 1, 1984, and the other composed of those hired after June 30, 1984. The City's required contributions are separately determined for both membership groups within each plan. For the former, required contributions include normal costs with interest and an amount sufficient to amortize the accrued actuarial liabilities in level dollar amounts over a closed 30-year period. The latter group has never incurred unfunded accrued actuarial liabilities; therefore, required contributions cover only normal costs.

Rhode Island general laws and collective bargaining agreements establish minimum employer funding independent of the City's funding policy, incorporating the collected amounts of certain types of revenues related to public safety services. However, the City's policy results in required contributions in excess of the statutory and contractual minimum levels.

Annual Pension Costs and Net Pension Obligations - Separate actuarial valuations for each plan were performed as of July 1, 2005. The following table summarizes annual pension costs for both the Police Plan and Fire Plan:

	<u>Fire Plan</u>	<u>Police Plan</u>

Concentrations - As of June 30, 2006, and during the year then ended, no pension assets were invested in any organization which collectively held 5% or more of the total assets of either plan.

C. **Other Post-Employment Benefits (OPEB)**

1. **Plan Description**

The City of Newport offers family or individual health insurance to retirees and life insurance to police retirees. Employees vest for OPEB when they vest for pension benefits. Retired police employees receive \$25,000 in retiree life insurance. Employees can choose individual or family coverage when active, which is paid by the City. Teachers, non-union employees and police employees contribute towards the cost of their health insurance, while active and after retirement. If an employee retires prior to age 65, the employee remains in their pre-retirement medical plan from the date of their retirement until age 65. At age 65, non-teachers enter Plan65 unless they are grandfathered in under another medical plan or are Medicare ineligible. Medicare ineligible participants remain in the medical plan they chose as active employees. Teachers who are in the "Extended Benefit Plan" contribute 5% of their salary and remain in any plan of their choosing at age 65, whether eligible for Medicare or not. The "Extended Benefit Plan" has been closed to new participants and, under the terms of a new contract, teachers can opt-out of the "Extended Benefit Plan". New teachers and teachers who opt-out of the "Extended Benefits Trust" do not receive any City funded benefits once they reach age 65. As of June 30, 2006, 437 retirees were eligible to receive health and life insurance benefits.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

C. Other Post-Employment Benefits (OPEB) (Continued)

2. Summary of Significant Accounting Policies and Plan Asset Matters

a. Basis of Accounting

The pension trust fund financial statements are prepared on the accrual basis of accounting. Revenues (contributions and investment income) are recognized when they are earned and expenses (benefits and administration) are recognized when they are due and payable in accordance with terms of the plan.

b. Valuation of Investments

Investments are valued at fair value. Securities traded on national exchanges are valued at the last reported sales price. There are no investments of 5% or greater in any one organization.

3. Funding Policy

The City of Newport has historically funded these liabilities on a pay-as-you-go basis. The current liabilities for the year ended June 30, 2006 were funded on a pay-as-you-go basis. During fiscal year 2006, expenditures or expenses of \$4,751,710, net of contributions, were recorded for post-employment benefits of retirees or beneficiaries and their dependents, distributed as follows:

General Fund	\$ 360,660
Special Revenue Funds – School Unrestricted	2,616,007
Enterprise Funds	258,532
Pension Trust Funds	<u>1,516,511</u>
Total	<u>\$4,751,710</u>

The City established an Irrevocable Trust Agreement (OPEB Trust) effective June 30, 2006, and has started to pre-fund OPEB liabilities. An employer contribution of \$487,956 was made in fiscal year 2006 from unanticipated revenues. The City Council also adopted a resolution requiring that all City (not school) employee health insurance contributions be put into the OPEB Trust. Currently, police and non-union employees contribute towards the cost of their health insurance. The City has added an annual amount to the budget to fund future liabilities.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

C. Other Post-Employment Benefits (OPEB) (Continued)

A portion of health insurance premiums is borne by the City, dependent upon each retiree's covered group, date of retirement and credited service. For members covered under the Police Pension Plan retiring after June 30, 1987, the City pays 50% of premiums plus an additional 5% of premiums for each year of service between 11 and 20 years, until 100% is paid. Retirees prior to that date are responsible for premiums for each year between 11 and 25 years, until 100% is paid. Premiums for retirees of both the Teachers' Plan and the Municipal Plan are fully paid by the City, provided the retiree was eligible for retirement at the time of separation from service. Beyond health insurance, the City bears only the cost of providing certain Police Pension Plan members a \$25,000 life insurance policy. Members of each group may elect dental and life insurance coverage at their expense.

The costs of other post-employment benefits are funded on a "pay-as-you-go" method. The City contracted to have an actuarial study performed of the cost of providing other post-employment benefits in preparation for GASB Statement No. 45, "Accounting and Financial Reporting by Employees for Postemployment Benefits Other Than Pensions," which will be implemented in fiscal year 2009. The actuarially accrued unfunded liability as of July 1, 2004, for all City and School employees is \$61.6 million.

Summary Financial Information

The Other Post Employment Benefits Trust summary financial information reported in the financial statements is as follows:

 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. **OTHER INFORMATION (CONTINUED)**

C. **Other Post-Employment Benefits (OPEB) (Continued)**

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation.

Annual required contribution	\$ 9,706,604
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost (expense)	<u>9,706,604</u>
Contributions made	<u>5,239,666</u>
Increase in net OPEB obligation	4,466,938
Net OPEB obligation - July 1, 2005	<u>-</u>
Net OPEB obligation - June 30, 2006	<u>\$ 4,466,938</u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2006 is as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/06	\$ 9,706,604	53.9%	\$ 4,466,938

Funded Status and Funding Progress

The actuarial accrued liability for benefits as of July 1, 2005, is \$123 million for City, School and Newport Public Library employees. There were no assets as of that date, thus, the entire amount is unfunded. The covered payroll (annual payroll of active employees covered by the plan) is \$44.5 million. The ratio of the unfunded actuarially accrued liabilities (UAAL) to covered payroll is 276%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial liabilities for benefits.

V. OTHER INFORMATION (CONTINUED)**C. Other Post-Employment Benefits (OPEB) (Continued)****Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The projected unit credit cost method was used in the July 1, 2005 actuarial valuation. Actuarial assumptions included a 7.5% investment rate of return (net of administrative expenses). Only assets that have been contributed to the OPEB Trust are considered available for liabilities for purposes of the valuation. The City does use other assets to pay the liabilities on a pay-as-you-go basis at the present time. The actuarial assumptions for healthcare cost trend is growth of 10% for 2006 and declining by 1% per year until 5% is reached. The 5% growth is used on a go-forward basis. The UAAL will be amortized over a closed thirty year period.

D. Contingencies

The City is involved in several lawsuits and claims. Both City officials and their legal counsel are unable to express an opinion as to the ultimate outcome of the cases, and no provision for loss has been made in the accompanying financial statements. It is the opinion of both the City officials and their legal counsel that the results of the cases would have no materially adverse effect on the City's financial position.

E. On-Behalf Payments

The amount of the State Teachers' Retirement Plan contribution recognized in the School Unrestricted Fund intergovernmental revenues and education expenditures for contributions made by the Stat on-behalf of the City's teachers was \$1,157,934.

F. Restatements**Government-Wide Financial Statements**

The beginning net assets for governmental activities were restated in order to record the net pension asset in the City of Newport Police Pension Fund and to correct the beginning net pension obligation in the City of Newport Firefighters Pension Fund. The beginning net assets were restated by \$5,502,490 for the net pension asset and \$894,391 for the net pension obligation increasing beginning net assets from \$49,966,266 to \$56,363,687.

Supplemental Schedules

General Fund

The general fund is the principal fund of the City and is used to account for all activities of the City, except those required to be accounted for in another fund. The general fund accounts for the normal recurring activities of the City (i.e., general government, public safety, public works, health, social services, recreation, education, etc.). These activities are funded principally by property taxes, user fees and grants from other governmental units.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

School Restricted Fund

This fund is used to account for educational grants that are restricted by the federal government or the State of Rhode Island for specific programs.

UDAG Fund

This fund is used to account for urban development grant activities.

State Grants Fund

This fund is used to account for grants received from the State of Rhode Island that are restricted for specific programs or purposes.

EDA Revolving Fund

This fund is used to account for economic development activities funded by the Federal Government and restricted for specific purposes.

Property Acquisition Fund

This fund is used to accumulate assets to purchase property on-behalf of the City.

Community Donation Fund

This fund is used to account for donations received by the city from various donors for both specific or general purposes.

Bramley Bill Fund

This fund is used to account activities funded by grants and private donations for specific purposes.

Debt Service Fund

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Permanent Funds

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting City's programs.

Nonmajor Proprietary Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the City’s Council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the City’s Council has decided that periodic determination of net income is appropriate for accountability purposes.

Maritime Fund

This fund is used to account for the activity associated with the City’s harbor operations.

Eastons’s Beach Fund

This fund is used to account for the activity associated with the City’s beach operations.

Parking Operations Fund

This fund is used to account for the activity associated with the City’s parking operations.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the City in a trustee capacity for individuals, private organizations or other governments.

Pension Trust Funds

A fiduciary fund type used to report resources that are required to be held in trust for the member and beneficiaries of defined benefit pension plans.

The City has two pension plans covering police and fire department employees. Substantially all of its other employees, except teachers, are covered by the Municipal Employees' Retirement System of the State of Rhode Island (Municipal Plan). Teachers are covered by the Employees' Retirement System of the State of Rhode Island (Teachers' Plan). The Firemen's Pension Plan and the Policemen's Pension Plan are contributory defined benefit plans.

Post-employment Healthcare Trust Fund

This fund is used to account for post-employment benefits provided to eligible retirees of the City.

Private Purpose Trust Funds

These funds are used to account for and report all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

Agency Funds

Agency funds are used to report resources held by the reporting government in a purely custodial capacity (assets equal liabilities).

Student Activity Funds

These funds are used to account for expenditures for educational extracurricular activities at various schools. Financing is provided by individual fundraising projects and private donations.

Brick Market Foundation Inc.

These funds are used to account for activities for the Brick Market Foundation. Financing is provided by fundraising and private donations.

Newport Municipal Charitable Improvement Fund, Inc.

These funds are used to account for expenditures for municipal improvement projects. Financing is provided by fundraising and private donations.

Total primary government	\$ 7,913,065	\$ 38,267	\$(1,413,944)	\$ 5,051,132

(Concluded)

- (1) - General government service charges increased significantly in FY2005 in the following categories:
Management and Computer Processing Charges increased by \$277,000
Fees and charges associated with the sale of residential and commercial property in the City increased by \$340,000
Fees for the use of vehicles increased in the capital fund by \$285,000
- (2) - Reduction in claims and judgments; reduction in the use of salary reserves as a result of open contracts
- (3) - Increase in water rates of 20%

NOTES:

Capital projects fund balance depends on timing of state and federal reimbursements and type of temporary or permanent debt that may exist. These items cause the fund balance to fluctuate from year to year. Permanent funds were reported as trust and agency funds prior to FY2003. The reduction of general fund balance in FY2004 was due to the use of appropriated fund balance for capital improvements. The reduction of general fund balance in FY2005 was due to the use of appropriated fund balance for capital improvements and a projected school deficit.

NOTES:
 * Contributions were for renovations to the Thompson Middle School in FY 2000.
 ** Federal and state grants to the schools were significantly higher.
 *** Local donations and grants to the schools vary from year to year.
 ^ Public Safety expenses were significantly higher in FY2004 because pension expenses related to public safety were reclassified to here from pension expenses.
 (1) Reclassified school restricted revenues from donations to other revenues.
 (2) Increase in loans and grants made from UDAG monies for Ronger Road Infrastructure and The Opera House.

Source: City of Newport, Rhode Island Assessor

NOTES:

The City's tax rate increase cannot exceed 5.5% of the prior year's rate and/or the total levy cannot exceed 5.5% of the prior year's total levy unless the State of Rhode Island approves such increase.

The City of Newport has no overlapping debt nor does it collect taxes for any other entity.

The City switched to a two-tiered tax in FY2002.

The City had a full revaluation of real property in 2002 (effective 2003). The full revaluation is required by state law every 9 years. Statistical updates are required every 3 years.
