THE CITY OF NEWPORT, RHODE ISLAND – AMERICA'S FIRST RESORT

December 31, 2014

To the Honorable Mayor, Councilors, and Citizens of the City of Newport, Rhode Island:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year (June 30) a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Newport, Rhode Island as of and for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of the City of Newport, Rhode Island. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Newport, Rhode Island has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Newport, Rhode Island's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Newport, Rhode Island's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Newport, Rhode Island's financial statements have been audited by CohnReznick LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Newport, Rhode Island for the fiscal year ended June 30, 2014 were free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unmodified opinion that the City of Newport, Rhode Island's financial statements as of and for the fiscal year ended June 30, 2014, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Newport, Rhode Island was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Newport, Rhode Island's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Newport, Rhode Island's MD&A can be found immediately following the report of the independent auditor.

Profile of the Government

The City of Newport, Rhode Island (City), founded in 1639, incorporated in 1784 and re-chartered in 1853, is located at the southern end of Aquidneck Island in Narragansett Bay, about 30 miles southeast of Rhode Island's capital of Providence. The City is bounded by the Atlantic Ocean on the east and south and Narragansett Bay on the west. The City is 11 square miles in size, with 7.7 square miles of land and 3.3 square miles of inland water. The City has a year-round population of about 25,000, which grows substantially during the summer months. The City is also visited by over 4,000,000 people annually.

The City operates under a Home Rule Charter providing for a council/city manager form of government. There is a seven-member City Council serving two-year terms, headed by its Chairperson, who is elected by the at large City Councilors and also holds the title of Mayor. Four of the Councilors are elected at large and three from voting wards. All legislative powers of the City are vested in the City Council by the Charter, including the ordering of any tax, making appropriations, and transacting any other business pertaining to the financial affairs of the City. The City Council is also responsible for passing ordinances, adopting the budget, appointing committees and hiring the City Manager, City Solicitors, Municipal Judges and Canvassing Clerk. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing all other employees.

An elected seven-member School Committee, all at large and serving two-year terms, is vested with autonomous legislative authority over the public school system. The School Committee appoints the Superintendent of Schools as the chief executive officer for the school system. The school system provides elementary and primary education to City residents and vocational programs to other Newport County residents.

Municipal services include public safety; potable water and wastewater collection, treatment and distribution; solid waste and recyclables collection and disposal; street and sidewalk maintenance; beach, harbor, recreation, tourism and parking operations; and planning, zoning and economic development functions.

The annual budget serves as the foundation for the City's financial planning and control. All departments and the Newport Public Schools are required to submit requests for appropriations to the City Manager by May 14th of each year. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents the proposed budget to the City Council for review no later than 45 days prior to June 30. The Council is required to hold 2 public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, function (e.g. public safety) and department. Department heads may make transfers of appropriations within a department with City Manager approval. Transfers of appropriations between departments, however, require the approval of the City Council. Budget-to-actual comparisons are provided in this report for the City's general operating fund and the school general operating fund.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local economy

From its early years when commerce involved the whale-oil trade, to today's highly sophisticated research in electronic submarine warfare, the seaport has continued to play a vital role in Newport's economy. The U.S. Navy, beginning with the founding of the Naval War College in 1884, influenced the development of the City and continues to do so as one of the major contributors to the local economy.

Newport's location, natural and cultural resources, and sense of history are responsible for the growth of tourism into a primary source of revenue. The third largest economic factor in Newport, the service sector, benefits from both the defense and tourism industries. As the State's principal tourist center and resort community, Newport is visited annually by millions of tourists who attend special events, sail and view the City's mansions and other attractions. The City's popularity has stimulated significant private investment in retail shopping facilities, hotels, timeshare units, restaurants, clubs and other tourist-oriented enterprises.

The personal income per capita in 2012 (latest available data) for Newport County is \$43,905 compared to \$44,990 and \$42,693 for Rhode Island and the United States, respectively. The unemployment rate is 5.7% compared to the state unemployment rate of 7.9%. The median selling price of an existing home in June 2014 is \$376,500 compared to \$398,000 in June 2013. The City is attracting older retired residents and empty-nesters as well as tourists. Properties, especially those over \$1 million, continue to maintain value and have not declined to the extent that they have in other parts of the state and country due to the City's proximity to the Narragansett Bay and Atlantic Ocean. The tourist industry has recovered and tourism is expected to continue to grow.

Long-term financial planning

The City was awarded a federal grant for the redevelopment and adaptive reuse of the former Sheffield public school to be used as the Newport TechWorks Accelerator and Innovation Center. Another major economic development initiative is the establishment of a North End Innovation Hub. In addition, the City continues to evaluate redevelopment options for excessed Navy property including the old naval hospital. A separate island-wide commission has been established to develop plans for the excessed property.

Long-term financial planning includes continuing significant capital renovation and additions in both the Water and Water Pollution Control (sewer) funds in response to new state and federal water quality standards and deteriorating buildings and systems. The replacement of the Lawton Valley Water Treatment Plant and significant long-term improvements to the Station 1 Water Plant in order to comply with new federal drinking water standards have been completed. The cost associated with this project was approximately \$85MM.

The City has developed a long-term master plan for Combined Sewer Overflow (CSO), and has undertaken and financed several capital projects in the last few years. Total costs related to the best and most likely options in the master plan at this time are estimated to be \$100 million spread over 30 years. Funds will likely come from a variety of sources including state subsidized revenue bonds, grants, and rates. The City built a new elementary school on the site of an existing school. The cost was \$30 million. Four schools were consolidated into one, leaving three schools that can be used for economic development possibilities.

Financial Policies

The City has a set of Council approved financial policies that were developed to ensure that financial resources are well managed and available to meet the present and future needs of the citizens of the City of Newport. Financial policies have impacted decisions in both the year under audit (FY2014) and future years.

One key policy is that budgets must balance, which means that budgeted current revenues must be equal to or greater than budgeted current expenditures in governmental funds; and revenues and other sources of cash must equal expenditures and other uses of cash in the enterprise funds. In conjunction with this is a policy that revenues must be increased or expenditures decreased in the same fiscal year that deficits appear. A third budget policy states that significant one-time revenues shall only be used for one-time expenditures.

The City Council is required by law to adopt balanced budgets although at times fund balance is appropriated for a specific use. Fund balance was appropriated in the school general operating fund in FY2014. The school committee appropriates fund balance in order to balance the school budget; however, they often do not use most of the appropriated fund balance.

Other financial policies deal with debt. These policies state that annual general fund debt service expenditures shall be less than 9% of annual general fund expenditures. The actual general fund debt service expenditures were significantly less than 9%.

A second debt policy says that the term of any bond issue shall not exceed the useful life of the capital project/facility or equipment for which the borrowing is intended. The City has complied with this policy.

There are reporting compliance policies that require the City administration to provide budget to actual reports to the City Council on a monthly basis and to provide quarterly budget, actual and projected revenues and expenditures to the State Office of Municipal Affairs. The City administration complied with these policies during FY2014.

Pension and other post-employment benefits

The City sponsors two single-employer defined benefit pension plans for police and fire employees. Each year, an independent actuary engaged by the pension plans calculates the amount of the annual contribution that the City must make to the pension plans to ensure that the plans will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the City fully funds each year's annual required contributions to the pension plans as determined by the actuary. The City also fully funds the calculation by the actuary of the annual amortization of the unfunded actuarially accrued liability. The liability is being amortized over a closed 30-year period. The City is in the 17th year (declining to 1). The plans are currently funded at 46% for the fire plan and 67% for the police plan.

The City provides pension benefits for its non-public safety employees (except teachers) through a state-wide plan managed by the State Treasurer. Newport teachers are members of the State of Rhode Island Employee Retirement System. State-hired actuaries determine the funding level and unfunded actuarially accrued liability for each individual participating employer. The City is 64% funded in the State's municipal employees' retirement plan. The State of Rhode Island General Assembly enacted legislation that significantly changes the pension plan for participants in the State Municipal Employees Plan and the State Teachers Plan. The changes are expected to reduce the long-term liability by about 50%; however, the legality of the pension changes enacted by the General Assembly are being challenged and scheduled

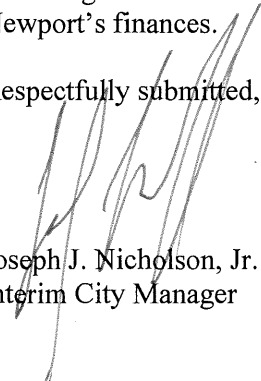

for a jury trial in April 2015. These changes are reflected in the June 30, 2014 footnotes and required supplementary information.

The City provides postretirement health coverage for all vested retirees, certain dependents and beneficiaries and life insurance benefits to police retirees. Vesting and participation is determined by bargaining contract and varies by length of employment and type of employment. As of June 30, 2014, 532 retirees were eligible to receive health insurance benefits, which are currently financed on a pay-as-you-go basis. The actuarial calculation of the combined municipal and school liability as of June 30, 2014 is \$118 million. The City has established and is funding a trust to accumulate assets for the payment of other post-employment benefits in the future. Assets of \$35 million have been accumulated as of June 30, 2014. Benefits will not be paid from the trust until such time as City management feels that sufficient assets are available to begin paying benefits. Retiree benefits and various options are currently being studied in order to reduce the liability.

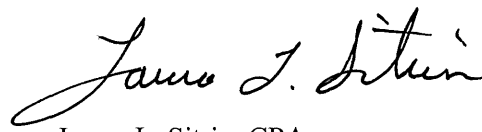

Additional information on the City's pension arrangements and postemployment benefits can be found in Notes V B. and V C. in the notes to the basic financial statements.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department. Credit also must be given to the Mayor and City Council for their unfailing support for achieving and maintaining the highest standards of professionalism in the management of the City of Newport's finances.

Respectfully submitted,

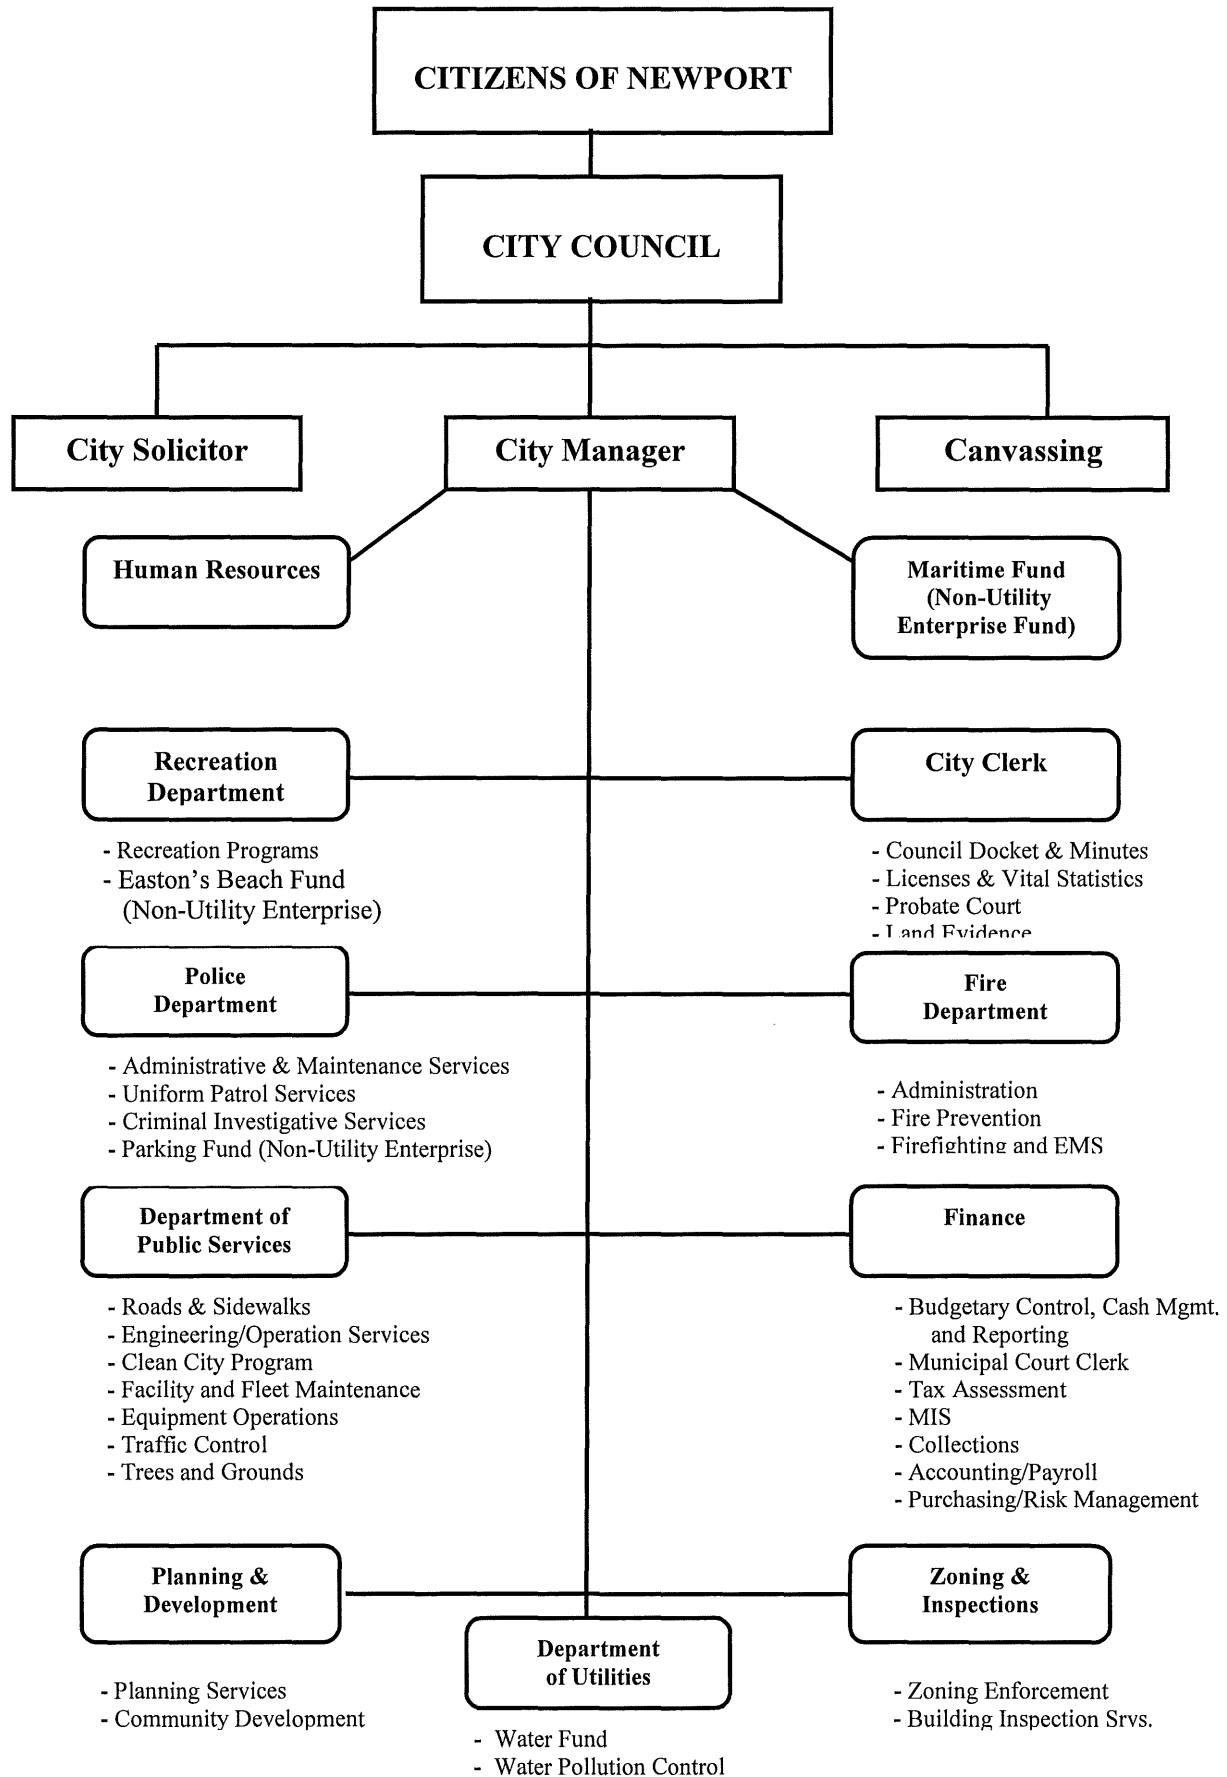

Joseph J. Nicholson, Jr.

Independent Auditor's Report

Members of the City Council
City of Newport, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Newport, Rhode Island, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Newport, Rhode Island, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the pension and other post-employment benefit plan schedules on pages 12 through 24 and pages 86 and 92, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Newport, Rhode Island's basic financial statements. The introductory section, supplemental schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2014, on our consideration of the City of Newport, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Newport, Rhode Island's internal control over financial reporting and compliance.

A handwritten signature in cursive script that reads "CohnReznick LLP".

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2014

As management of the City of Newport, we offer readers of the City of Newport's financial statements this narrative overview and analysis of the financial activities of the City of Newport for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the Introductory section of this report.

Financial Highlights

- The assets of the City of Newport exceeded its liabilities at the close of the most recent fiscal year by \$221,821,901 (*net position*).
- The government's net position increased by \$14,107,450. Governmental activities' net position increased by \$11,316,145 due primarily to increases in property taxes, service charges, especially building permits, and a gain in the market value of Permanent Fund investments. Business-type activities had an increase of \$2,791,305 in net position due to programmed rate increases in the water and water pollution control departments over the last couple of years to pay debt service related to major capital improvements.
- At June 30, 2014, the City of Newport's governmental funds reported a combined ending fund balance of \$34,326,567, an increase of \$141,779 in comparison to the prior year fund balance. Of the total fund balance, \$22,516,546 (66%) is either nonspendable, restricted or committed, leaving \$12,262,264 as available for spending at the City's discretion (assigned and unassigned fund balance).
- At the end of the current fiscal year, total fund balance for the general fund was \$13,051,602, or 14.05% of total general fund expenditures and net other financing uses. \$789,338 of the fund balance is restricted or committed leaving \$12,262,264 of assigned or unassigned fund balance. The general fund total fund balance is split between the control of the City Council and the School Committee. Assigned and unassigned fund balance under the control of the City Council is \$11,747,349, or 13.8% of city operating expenditures and other financing uses. The School's fund balance is \$514,915.
- The City of Newport's bonded debt increased by \$25,975,388 (20%) as the result of revenue bond drawdowns of \$31,588,756 offset by principal retirements of \$5,613,365.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Newport's basic financial statements. The City of Newport's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Newport's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Newport's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Newport is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-Wide Financial Statements (Continued)

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g, uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Newport that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Newport include general government, education, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities of the City of Newport include water utilities, sewer utilities (water pollution control utilities), parking facilities, and harbor facilities.

The government-wide financial statements can be found on Exhibits A and B of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Newport uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Newport can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Newport maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund (made up of four funds, including the City's General Fund, the School Unrestricted Fund, the Property Acquisition Fund and the Gifts Fund), the Community Development Block Grant Fund, the Capital Projects Fund and the Permanent Fund, all of which are considered to be major funds. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for the combined General Fund is included on Schedules 3 and 4 of this report. Individual fund data for each of the nonmajor governmental funds is included on Schedules 9 and 10 of this report.

The City of Newport adopts an annual budget for its General Fund and School Unrestricted Fund. A Budgetary comparison statement has been provided for the General Fund on Exhibit F.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Fund Financial Statements (Continued)

Proprietary funds

The City of Newport maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Newport uses enterprise funds to account for its water operations, water pollution control operations, parking operations, and its maritime (harbor) operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Newport's various functions. The City of Newport uses an internal service fund to account for its fleet and equipment maintenance operations. Because this fund predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Utilities Fund and for the Water Pollution Control operation, both of which are considered to be major funds of the City of Newport. The Parking Operations Fund and Maritime Fund are combined into a single, aggregated presentation in the proprietary fund financial statements. The internal service fund is presented separately in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on Exhibits G, H and I of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Newport's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on Exhibits J and K of this report.

Notes to the basic financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on Exhibit L of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Newport's progress in funding its obligation to provide pension and other post-employment benefits to its employees.

The combining statements referred to earlier in connection with the general fund, nonmajor governmental funds and proprietary funds are presented immediately following the required supplementary information on pensions.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Newport, assets exceeded liabilities by \$221,821,901 at the close of the most recent fiscal year.

By far the largest portion of the City of Newport's net position (74%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City of Newport uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Newport's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Newport's Net Position

	Governmental activities		Business-type activities		Total	
	2014	2013	2014	2013	2014	2013
Current and other assets	\$ 49,101,391	\$ 52,286,262	\$ 38,472,521	\$ 33,838,431	\$ 87,573,912	\$ 86,124,693
Capital assets	121,409,871	114,374,832	205,714,307	179,407,896	327,124,178	293,782,728
Total assets	170,511,262	166,661,094	244,186,828	213,246,327	414,698,090	379,907,421
Long-term liabilities	55,904,541	60,443,747	111,857,997	85,286,721	167,762,538	145,730,468

Total liabilities	68,326,322	75,792,299	124,549,867	96,400,671	192,876,189	172,192,970
Net assets:						
Invested in capital assets, net of related debt	75,523,117	65,282,126	90,596,425	94,138,176	166,119,542	159,420,302
Restricted	12,270,831	10,792,567	27,875,957	22,213,096	40,146,788	33,005,663
Unrestricted	14,390,992	14,794,102	1,164,579	494,384	15,555,571	15,288,486
Total net position	\$ 102,184,940	\$ 90,868,795	\$ 119,636,961	\$ 116,845,656	\$ 221,821,901	\$ 207,714,451

An additional portion of the City of Newport's net position (18%) represents resources that are restricted by external parties.

The City's net position increased by \$14,107,450 during the current fiscal year. Several factors contributed to this increase. The FY2014 total tax levy increase was 3.04% leading to an increase of \$2.1 million in property and motor vehicle taxes. Both governmental activities operating and capital grants and contributions increased because of increased state aid for school debt service, increased drug forfeiture funds and the donation of \$2,463,956 of capital asset donations from the transfer of beach operations. The Permanent Fund investments had realized and unrealized gains in investment market value. There was a 5.8% increase in the water pollution control rates to help fund capital projects. The only major decrease is the loss on the disposal of capital assets in the nonmajor business-type funds due to the transfer of beach operations to the general fund.

Governmental Activities

Governmental activities net position increased by \$11,316,145. A comparison of FY2014 and FY2013 activity can be found on the next page, which indicates the changes identified above.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-Wide Financial Analysis (Continued)

Business-type activities

Business-type activities' net position increased by \$2,791,305. The increase is due primarily to a budgeted rate increase in water pollution control rates of 5.8%. The rate increase in the water pollution control rates is to help fund major projects related to main replacements and repairs, sanitary sewer upgrades, stormwater upgrades and to eliminate discharges into the harbor from combined sewer overflows (CSO's). A recent system plan estimates the cost of the CSO eliminations at \$100 million to be spread over the next 30 years.

The Water Fund had income before transfers of \$2,077,525 for the year ended June 30, 2014, the Water Pollution Control Fund had income before transfers of \$1,846,416, and the nonmajor proprietary funds had losses before transfers of (\$2,194,859).

Expenses and Program Revenues - Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City of Newport uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the City of Newport's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Newport's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (Continued)

Governmental funds (continued)

As of the end of the current fiscal year, the City of Newport's governmental funds reported combined ending fund balances of \$34,326,567, an increase of \$141,779 in comparison with the prior year fund balance. Much of the total combined ending fund balance amount (\$22,064,303) constitutes fund balance that is either nonspendable, restricted by outside legal sources or committed for capital or contractual purposes. An additional \$452,243 of the fund balance is assigned by the City Council and the balance of \$11,810,021 is unassigned, which is available for spending at the government's discretion.

The General Fund is the combined operating general fund of the City of Newport and the operating general fund of the Newport Public Schools. Two smaller funds are combined into the General Fund as well. They include the property acquisition fund and a gifts fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$11,810,021, while total fund balance was \$13,051,602. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 12.7% of total General Fund expenditures and transfers, while total fund balance represents 14.05% of that same amount.

The total fund balance in the general operating fund of the City (does not include the gift fund and the property acquisition fund also combined into the general fund) under the control of the City Council is \$11,984,991, which is 14.3% of City operating expenditures and other financing uses. The general operating fund of the Newport Public Schools is under the control of the elected School Committee. That fund balance is \$514,915. It is not particularly meaningful to compare the school general fund balance to school expenditures.

The fund balance of the City's operating general fund under the control of the City Council increased by \$1,108,378 (not including the property acquisition fund and gifts fund) due to a tax rate increase in FY2014 and expenditures that were lower than budgeted. The fund balance of the Newport Schools under the control of the School Committee decreased by \$615,375 due to planned use of fund balance and revenues less than what was anticipated. The table on the next page shows the comparison of revenues and expenditures in the General Fund between FY2014 and FY2013.

There was an overall increase in City general operating fund revenues of \$3,984,620 from the prior year due to an increase in property tax rates and state housing aid for the new Pell School. The School saw a decrease in revenues due primarily to a decrease in outside tuition fees in FY2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (Continued)

Governmental funds (continued)

The Community Development Block Grant Fund had a decrease in fund balance of \$27,457 which is due to timing differences between grant revenues and expenditures.

The Capital Projects Fund had a decrease in fund balance of \$1,619,911 that is primarily the result of timing differences between revenues and actual expenditures as of June 30, 2014.

The Permanent Fund had an increase in fund balance of \$1,279,642 due to net results from market returns.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were due to budgetary carryovers from fiscal year 2013 of \$790,631 and a budget amendment increasing revenues and appropriations by \$395,000.

Proprietary funds

The City of Newport's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water Fund at the end of the year amounted to a deficit of (\$4,713,927) while restricted net position was \$17,383,270 and net position invested in capital assets, net of related debt was \$34,162,562. The Rhode Island Public Utilities Commission sets rates at a level that allows revenues to the extent that they cover approved operating, debt service and capital expenditures. The rates do not allow for reserves, thus any unforeseen expense is covered by curbing operating and maintenance expenses.

Unrestricted net position of the Water Pollution Control Fund at the end of the year amounted to \$539,268 while restricted net position was \$10,492,687 and net position invested in capital assets, net of related debt was \$51,410,137. Much of the revenue in the Water Pollution Control Fund is to fund future debt service related to capital improvements. Cash is restricted in the Water Pollution Control Fund because it is subject to debt covenant requirements. Most of the Water Pollution Control Fund net position is restricted, held in trust or invested in capital assets, net of related debt.

The Parking Fund had unrestricted net position of \$3,862,436 and the Maritime Fund had unrestricted net position of \$1,476,802. The total growth in net position for the Water Fund was \$2,077,525; for the Water Pollution Control Fund \$2,546,416; for the parking operations fund \$397,633; and for the Maritime Fund \$160,712. The Easton's Beach fund had a reduction in net position of \$2,390,981. The Easton's Beach Fund reductions is a result of closing the enterprise fund into the general fund. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Newport's business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (Continued)

Capital Asset and Debt Administration

Capital assets

The City of Newport's investment in capital assets for its governmental and business-type activities as of June 30, 2014 is \$327,124,178 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and systems, machinery and equipment, vehicles, infrastructure and construction in progress. There was a total increase in the City of Newport's investment in capital assets for the current fiscal year of 11.3%. Individually, governmental activities had a 6.2% increase and business-type activities had a 14.7% increase.

Major capital asset events during the current fiscal year included the following:

- \$2,163,436 was spent on road and sidewalk reconstruction and improvements.
- \$933,826 was spent on equipment replacement.
- \$3,523,910 was spent on the new Pell Elementary School
- \$31,339,495 was spent on water treatment plants, water infrastructure, and mains.
- \$2,826,669 was spent on combined sewer overflow and other water pollution control issues.

Additional information on the City of Newport's capital assets can be found in Exhibit L. Note IV. C.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Financial Analysis of the City's Funds (Continued)

Capital Asset and Debt Administration (Continued)

Long-term debt

At the end of the current fiscal year, the City of Newport had total bonded debt outstanding of \$157,992,213. Of this amount, \$41,993,536 comprises debt backed by the full faith and credit of the government. The remainder of the City of Newport's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

General Obligation and Revenue Bonds

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
General Obligation Bonds	\$ 41,993,536	\$ 44,873,536	\$ -	\$ -	\$ 41,993,536	\$ 44,873,536
Revenue Bonds	-	-	115,998,677	87,143,289	115,998,677	87,143,289
Total	<u>\$ 41,993,536</u>	<u>\$ 44,873,536</u>	<u>\$ 115,998,677</u>	<u>\$ 87,143,289</u>	<u>\$ 157,992,213</u>	<u>\$ 132,016,825</u>

The City of Newport's total bonds increased by \$25,975,388 (20%) during the current fiscal year. The increase was the result of revenue bond drawdowns of \$31,588,756 primarily for the water treatment plants project. Bonds of \$5,613,365 were retired during fiscal year 2014.

The City of Newport maintains an "AA+" rating from Standard and Poor for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may have outstanding to 3% of its assessed property values. The current debt limitation for the City is \$159,909,784, which is significantly in excess of the City's outstanding general obligation debt.

Additional information on the City of Newport's long-term debt can be found in Exhibit L. Note IV. E. of this report.

Economic Factors and Next Year's Budgets and Rates

- The average annual not seasonally adjusted unemployment rate in 2013 for the City of Newport was 8.7%, which is less than the state's unemployment rate of 9.0% but higher than the federal unemployment rate of 7.0% in November 2013.
- The occupancy rate of the government's central business district is about 98% during the summer tourist season (May through October) and 65% in the remaining months.
- Inflationary trends in the region follow national indices.

All of these factors were considered in preparing the City of Newport's budget for the 2015 fiscal year.

Fund balance in the City's general operating fund at June 30, 2014 is \$11,984,991 or 14.3% of City general operating fund expenditures, which complies with the City's fiscal policy of maintaining a minimum of 10% of total General Fund expenditures and transfers out as a reserve.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Economic Factors and Next Year's Budgets and Rates (Continued)

The Water Pollution Control Fund's rates did not change in FY2014 but are expected to increase in the next several years to fund projects required under a consent decree with the federal Environmental Protection Agency. The total cost for projects associated with the consent decree is not known but is estimated to be around \$100 million. The Water Fund rates are controlled and set by the Rhode Island Public Utilities Commission. A rate increase was approved effective July 1, 2014 of 22.1% to cover debt service related to the rebuilding and major improvements in the two water treatment plants.

Requests for Information

This financial report is designed to provide a general overview of the City of Newport's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Laura Sirin, City of Newport, 43 Broadway, Newport, Rhode Island 02840.

AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT
OF NET POSITION ARE DIFFERENT BECAUSE:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds,	121,369,051
Other long-term assets are not available to pay for current period expenditures and, therefore, are unavailable in the funds,	9,942,020
Internal service funds are used by management to charge the cost of fleet maintenance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	168,457
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds (Note II).	(63,621,155)

CITY OF NEWPORT, RHODE ISLAND

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2014**

AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES
ARE DIFFERENT DUE TO:

Net Change in Fund Balances-Total Governmental Funds \$ 141,779

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. 7,040,302

Reductions in deferred revenue that provide current financial resources to governmental funds are not reported as revenues in the Statement of Activities. 372,030

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. 650,822

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. The amount is the net effect of these differences in the treatment of long-term debt and related items. 3,111,212

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES \$ 11,316,145

CITY OF NEWPORT, RHODE ISLANDNOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2014**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the City of Newport, Rhode Island (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America as applicable to governmental entities. In certain circumstances, summaries of the City's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

A. Reporting entity

The City was founded in 1639, incorporated under the laws of the State of Rhode Island in 1784 and re-chartered in 1853. The City is governed by a home rule charter which provides for a Council/City Manager form of government. Legislative authority is vested in a seven-member City Council, of which four are elected at large and three from voting wards. The Mayor is chosen by council members from among its four at-large members. A seven-member School Committee, all elected at large, is vested with autonomous legislative authority over the public school system. Members of both the City Council and School Committee are elected to non-partisan biennial terms.

The City Manager is appointed by the Council and serves as the chief executive officer over all municipal services except those performed by the Solicitor, Canvassing Authority, and municipal judges, each of whom is appointed by and reports directly to the Council. Municipal services include public safety; potable water and wastewater collection, treatment and distribution; solid waste collection and disposal; street and sidewalk maintenance and operations which support economic and residential development, open space preservation and State law and City code enforcement.

The Superintendent of Schools, appointed by the School Committee, is the chief executive officer for the school system. The school system provides elementary and primary education to City residents and vocational programs to other Newport County residents.

The accompanying financial statements present the government. The City does not have any organizations that meet the definition of component unit, entities for which the government is considered to be financially accountable, under the Governmental Accounting Standards Board Statement No. 61.

B. Basis of presentation and measurement focus – government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of presentation and measurement focus – government-wide financial statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency Funds have no measurement focus but are accounted for using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments for the interfund services provided between the governmental funds and enterprise and internal service funds, and charges for services between the water fund and the water pollution control fund.

C. Basis of presentation and measurement focus – fund financial statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions under capital leases are reported as other financing sources.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of presentation and measurement focus – fund financial statements (continued)

Local taxes, including property taxes and franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. It is combined with the School's unrestricted fund, the property acquisition fund and the gift fund for purposes of financial reporting.

The *Community Development Block Grant Fund* (CDBG fund) is a special revenue fund, whereby the City receives federal funding to promote specific types of community and economic development. Funds can only be spent in accordance with a legally binding grant agreement.

The *Permanent Funds* are used to account for resources legally held in trust for specific functions, normally provided by governments. In most cases, only the earnings on the principal can be expended.

The *Capital Projects Fund* is used to account for the acquisition of capital assets or construction of major capital projects other than those financed by proprietary funds.

The City reports the following major proprietary funds:

The *Water Fund* records the costs of collection and treatment of raw water and the distribution of potable water for user consumption and fire protection. The City's water system directly serves retail users throughout Newport and in parts of two neighboring towns. The Water Fund also provides water to the United States Naval Base and customers of a neighboring water and fire district through wholesale contracts. Costs of servicing the users are recovered through both fixed and commodity charges under tariffs regulated by the Rhode Island Public Utilities Commission.

The *Water Pollution Control Fund* records the costs of collection and treatment of wastewater, the extraction and treatment of sludge and the discharge of treated effluent. These costs are recovered from the retail customers through rates assessed on their metered water charges and from contractual agreements with the United States Naval Base and a neighboring town.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of presentation and measurement focus – fund financial statements (continued)

Additionally, the City reports the following fund types:

The *Special Revenue Funds* account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes by an external party.

The *Debt Service Fund* accounts for resources accumulated and payments made for principal and interest on a qualified zone (QZAB) bond, the proceeds of which were used to help finance the construction and renovation of Thompson Middle School.

The *Internal Service Fund*, a proprietary type fund, is used to account for fleet management services provided to other departments of the government on a cost reimbursement basis.

The *Enterprise Funds* are used to account for those operations that are financed and operated in a manner similar to private business, primarily through user charges.

The *Private-Purpose Trust Fund* is used to account for resources legally held in trust for use by outside individuals, trusts or organizations to provide awards and scholarships in accordance with a donor's specific instructions or criteria.

The *Pension Trust Fund* accounts for the activities of the Police Retirement Fund and the Fire Retirement Fund, which accumulate resources for pension benefits to qualified police and fire employees.

The *OPEB Trust Fund* accumulates resources for future retiree health benefits and retiree life insurance benefits for eligible teachers and police retirees.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. Agency funds include student activity funds and a community group that exists for purposes normally provided by the City.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule include fees for services provided by one fund to another fund, annual lease payments for vehicles paid to the capital projects fund, and other charges between the City's water and water pollution control (sewer) function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**C. *Basis of presentation and measurement focus – fund financial statements (continued)***

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water Fund, the Water Pollution Control Fund, the Parking Fund, the Beach Fund, the Maritime Fund and the City's internal service fund are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

It is the City's policy for all funds, that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including fund balances, are available, The City considers restricted amounts to be spent before any unrestricted amounts are used. Furthermore, it is the City's policy that when an expenditure/expense is incurred for purposes for which committed, assigned or unassigned resources, including fund balances, are available, the City considers committed amounts to be spent first, followed by assigned amounts and lastly unassigned amounts.

D. *Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance***1. Deposits and investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's deposits are subject to certain State and municipal restrictions. Under Rhode Island general laws, depository institutions must insure deposits of the City or pledge eligible collateral equal to 100% of deposits maturing in greater than 60 days. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of maturities. The City Council has further enacted restrictions which essentially limit short-term investments to U.S. Treasuries or debt instruments issued by agencies of the U.S. Government or certificates of deposit less than or equal to the amount covered by the Federal Deposit Insurance Corporation ("FDIC") or the Federal Savings and Loan Corporation ("FSLIC"). Maturities of these instruments are required to be matched to any underlying liabilities.

Investments

Investments of the City are reported at fair value. The City accounts for the carrying value of investments by utilizing the specific identification method. Fair value is determined by the last reported bid price on the last business day of the year.

The City Council restricts both the type and maturity of instruments in which City assets, other than those of fiduciary funds and deferred compensation plans, may be invested. Acceptable investments include certificates of deposit, debt instruments issued by the U.S. Treasury and agencies of the Federal government, or high grade municipal securities. Maturities must be matched to meet the underlying obligations for which invested proceeds were collected. The authority for investing fiduciary assets is vested with a commission appointed by and accountable to the City Council.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance (continued)

2. Receivables and payables

Interfunds

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Property taxes and other receivables

All property tax receivables, user fees receivables and notes receivable are shown net of an allowance for uncollectibles. The property tax receivable allowance at June 30, 2014, is equal to 68% of outstanding property taxes. Other allowances vary depending on the nature of the receivable and the history of collections.

Taxes are levied each July 1 on (a) the full and fair value of real and tangible personal property owned within the City the previous December 31; and (b) the value, as determined by the Rhode Island Vehicle Valuation Commission, of vehicles registered within the City the previous calendar year, prorated for the actual number of days so registered. Taxes are levied for the year commencing on that date, payable in equal quarterly installments on the fifth days of August, November, February and May. Taxes are considered overdue on the 6th day of each quarter and are assessed penalties and will be collected through the sale of tax titles if required. The City has a tax lien on the property as a matter of law on the date the roll is certified, which is December 31 of the previous year.

Rhode Island general laws restrict the City's ability to increase its total tax levy by more than 4%.

3. Inventories and prepaid items

All inventories are valued at cost using the first-in, first-out (FIFO) method of valuation.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance (continued)

4. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as machinery and equipment with an initial, individual cost of more than \$10,000, land or building improvements of more than \$20,000 and infrastructure of more than \$25,000, and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The value of both governmental and business-type activities infrastructure is fully reported and depreciated as applicable.

Property, plant and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40 - 125
Building improvements	20 - 40
Water and sewer improvements	20 - 50
Water and sewer infrastructure	50 - 100
Infrastructure	75
Equipment and other capital assets	6 - 30

5. Compensated absences

City and school employees are allowed under various labor agreements and by City ordinance to accumulate earned but unused vacation and sick leave. The City reports a liability based on the various provisions as follows:

- Supervisory (Nonunion); Supervisory (NEA); AFSCME-City
 - maximum sick leave accrual is 960 hours
 - maximum sick leave payout is 65% up to \$7,500 - \$25,000 if 10 years of service
 - maximum vacation accrual and payout is 200-300 hours
- Police and Fire:
 - maximum vacation accrual and payout is 400 hours
 - sick leave payout of 65% of accumulated leave up to 2,000 hours and 45% over 2,000 hours for police; no cap for firefighters

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)***D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance (continued)*****5. Compensated absences (Continued)**

- Teachers:
sick leave payout of 25% of number of days in excess of 50 and up to a maximum of 165
- AFSCME – School:
maximum vacation accrual of 40 days; all accumulated payable upon separation
maximum sick leave accrual of 225 days; payout 30% of days greater than 60 and less than 123

All vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. The current portion of the leave is determined based on historical and current usage. The current and non-current portion is recorded in the government-wide financial statements. The entire amount is reported as current in the proprietary fund financial statements.

6. Long-term obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, expenditures for judgments and claims are recorded on the basis of settlements reached or judgments entered within the current fiscal year. In the government-wide financial statements, the estimated liability for all judgments and claims is recorded as a liability.

7. Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City does not currently have any items that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance (continued)

7. Deferred outflows/inflows of resources (continued)

For governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. Accordingly, unavailable revenue is reported only in the governmental funds' balance sheet. The governmental funds report unavailable revenue from three sources: property taxes, loans receivable, and intergovernmental receivables. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

8. Restricted assets

Certain proceeds of the Water Pollution Control Fund and Water Fund revenue bonds are classified as restricted assets on the statement of net position because they are maintained in separate escrow accounts managed by trustees in accordance with the bond covenants. These include debt service reserves and capitalized interest.

The Water Fund has additional cash on the statement of net position classified as restricted since, by order of the Rhode Island Public Utilities Commission, it may only be used for debt service, capital, electricity, certain specified retiree/new hire benefits, or chemical expenditures.

Endowment funds held by the City for various purposes are restricted to expenditure of the investment income only for the purposes designated by the various donors.

9. Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

10. Fund balance flow assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)***D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance (continued)*****11. Fund balance policies**

In the fund financial statements, governmental funds report fund balances in one of five categories depending on the purposes of the revenue sources. Nonspendable fund balances include amounts that are legally or contractually required to be maintained intact, for instance the nonexpendable portion of a trust; or are resources in nonspendable form such as inventory and prepaid amounts. Amounts that are legally required by outside parties to be used for a specific purpose; or have restrictions imposed by law through constitutional provisions or enabling legislation, are classified in the restricted category.

Committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The City's highest level of authority is a city ordinance properly adopted by the City Council. Committed fund balance also includes contractual obligations where resources have been specifically committed for use in satisfying those contractual requirements. Assigned fund balance includes amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Unassigned fund balance is the residual classification for the general fund, the school unrestricted fund, and deficit fund balances in other funds.

12. Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental funds' balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds." The details of this difference are as follows:

Bonds payable	\$ 41,993,536
Bond premium	3,116,666
Leases payable	776,552
Claims and judgments	310,000
Compensated absences	7,126,076
Net pension obligation	4,731,481
Net other post-employment benefit obligation	4,963,884
Accrued interest payable	602,960
Net adjustment for long-term liabilities not due and payable in the current period	<u>\$ 63,621,155</u>

Other long-term assets are not available to pay for current period expenditures and, therefore, are unavailable in the funds:

Net pension asset	\$ 6,292,378
Prepaid expenses	505,344
Unavailable property taxes, loans and grant revenue	6,538,131
Allowance for doubtful accounts	(8,480,742)
Property tax and loan interest accrual	5,086,909
Net adjustment for long-term assets not available in the current period	<u>\$ 9,942,020</u>

Another element of the reconciliation explains that "Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds." The details of this difference are as follows:

Capital assets as of July 1, 2013, net of accumulated depreciation	\$ 114,374,832
Capital assets of internal service fund accounted for in the net position adjustment for internal service funds	(40,820)
Current year capital outlay	10,604,506
Depreciation expense	(3,569,467)
Net adjustment for capital assets	<u>\$ 121,369,051</u>

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
(CONTINUED)

Explanation of certain differences between the governmental statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities.

One of the reconciling items on the Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities is that governmental funds report capital outlays as expenditures. The Statement of Activities allocates the cost of those assets over their estimated useful lives and reports depreciation expense. The details of this difference are as follows:

Capital additions for the year ended June 30, 2014, excluding internal service funds	\$ 10,604,506
Depreciation expense, excluding internal service funds	<u>(3,564,204)</u>
Net adjustment for capital outlays	<u>\$ 7,040,302</u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Current year change in compensated absences	\$ 71,046
Current year change in claims and judgments	161,940
Current year change in net pension obligation	32,390
Current year change in net pension asset	(18,304)
Other	(390)
Current year change in net OPEB benefit obligation	<u>404,140</u>
Net adjustment for current year expenses	<u>\$ 650,822</u>

The repayment of long-term debt uses current financial resources of governmental funds while it has no effect on net position. Interest expense is not accrued in governmental funds while it is in government-wide statements:

Principal repayment of debt	\$ 2,880,000
Amortization of bond premium	227,834
Principal repayment of capital lease	98,118
Amortization of prepaid interest	(72,192)
Current year change in interest accrual	<u>(22,548)</u>
Net adjustment for long-term debt	<u>\$ 3,111,212</u>

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY***A. Budgets and budgetary accounting***

A budget is adopted for the General and School Unrestricted Funds on the modified accrual basis with the exception that encumbrances are treated as budgeted expenditures in the year of the commitment to purchase.

In accordance with the City Charter, the City Manager must present to the Council a recommended annual budget for the operations of all municipal departments no later than 45 days prior to the commencement of each fiscal year. The recommended budget must include an appropriation to fund mandated contractual obligations in excess of school anticipated revenues. The Council may amend recommended municipal appropriations but not those of the school. The budget must be adopted by ordinance by the last Council meeting prior to the new fiscal year.

- Budgets are adopted on a legally enacted budgetary basis, which differs from generally accepted accounting principles (GAAP) in that budgetary expenditures for goods and non-employment services are recognized when legally binding orders referred to as encumbrances are placed.
- In addition to limits enforced by the budget ordinance, the City Charter further restricts the incurrence of municipal expenditures or expenses to budgeted revenues at the fund level. The City Manager must periodically review revenues and reduce annual appropriations sufficiently to cover any shortfalls in budgeted revenues.
- Costs of operations for all departments established within the City Charter must be appropriated through an annual budget ordinance. These departments are presented within the General Fund and the School Unrestricted Fund.
- Municipal budgetary control is legally enforced at the department level.
- Appropriation transfers between departments require approval by five of the seven-member Council. Other appropriation increases require both the establishment of a funding source and passage of a budget amendment ordinance. Amendments to the budget during the year totaled \$790,631 from fund balance due to prior year appropriation carryovers.
- Intra-departmental transfers of municipal appropriations may be made with the approval of the City Manager or his designee.
- Unencumbered and unexpended appropriations lapse at fiscal year-end. School budgetary control is legally enforced only at the unrestricted fund level; inter-departmental transfers may be made without School Committee approval.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

B. Budgetary-GAAP reporting reconciliation

The General Fund Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budgetary Basis) in the financial statements presents comparisons of the legally adopted budget with actual data on a budgetary basis. The budgetary basis differs from GAAP because the budgetary includes encumbrances that are not recognized under GAAP.

A reconciliation of revenues, expenditures and fund balance between the accounting treatment required by GAAP (Exhibit D), and budgetary requirements (Exhibit F), is as follows:

	General Fund		
	Revenues	Expenditures	Fund Balance
Balance, Budgetary Basis, Exhibit F- June 30, 2014	\$ 97,699,781	\$ 94,838,263	\$ 11,801,036
Encumbrances outstanding at June 30, 2013 and liquidated during the year ended June 30, 2014	-	759,186	-
Add unbudgeted Property Acquisition Fund and Gift Fund	36,805	35,507	564,034
State teachers' retirement on-behalf payments	1,319,752	1,319,752	-
Miscellaneous adjustments	-	-	(3,353)
Encumbrances outstanding at June 30, 2014 charged to budgetary expenditures	-	(689,885)	689,885
Balance, GAAP Basis, Exhibit D - June 30, 2014	<u>\$ 99,056,338</u>	<u>\$ 96,262,823</u>	<u>\$ 13,051,602</u>

C. Excess of expenditures over appropriations

The legal level of control for which expenditures cannot exceed appropriations is at the category level within a department. The table below shows the amounts by which certain departmental expenditures exceeded fiscal year 2014 appropriations (after approved transfers).

Department	Expenditures in Excess of Budget
Debt service	\$ 593,932
Transfers to other funds	495,333
School unrestricted fund	16,183

The debt service expenditures were offset by state housing aid
The transfers to other funds were primarily to pay off Easton's Beach loans prior to transfer
The School unrestricted fund deficit will need to be covered

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

D. Donor restricted endowments

Investments in marketable equity and all debt securities are carried at market value. The City allocates investment income in accordance with donor restrictions and Rhode Island law, which adopted the provisions of the Uniform Prudent Management of Institutional Funds Act (UPMIFA). UPMIFA requires the investment of endowments in good faith and with the care that an ordinarily prudent person in a like position would exercise under similar circumstances. It requires prudence in incurring investment costs, authorizing only costs that are appropriate and reasonable. Factors to be considered in investing are expanded to include, for example, the effects of inflation. UPMIFA emphasizes that investment decisions be made in relation to the overall resources of the City. Net appreciation on investments at June 30, 2014 was \$2,247,748 and is reported in restricted net position.

IV. DETAILED NOTES ON ALL FUNDS

A. Cash and investments

Cash and cash equivalents:

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. Rhode Island public law requires 100% of public deposits in a qualified public depository with maturities greater than sixty (60) days are collateralized with either bank segregated assets, in a trust department or in custodial accounts at a federal reserve bank or federal home loan bank. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of maturities. The City Council further restricts deposits and short-term investments (less than 3 months) to insured or collateralized cash accounts, U.S. Treasuries, debt instruments issued by U.S. Government agencies or Certificates of Deposit (CDs) less than or equal to the amount covered by the Federal Deposit Insurance Corporation (FDIC). The City Council also requires that CDs in excess of FDIC limits and any repurchase agreements are collateralized in amounts of at least 102% of the market value of the deposit. At June 30, 2014, the City's deposits are not exposed to custodial risk since most of the above deposits are collateralized at 102% with assets held either in trust or by a third party bank, in U.S. Government National Mortgage Association (GNMA) pass-through pools or Federal Home Loan Mortgage Corporation (FHLMC) securities held in the City's name. The remaining deposits are insured by the FDIC.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Cash and investments (continued)

Cash and cash equivalents (continued)

As of June 30, 2014, the City's bank balance of \$49,503,768 was insured and collateralized as follows:

Insured	\$ 1,041,761
Collateralized:	
Collateral held by the pledging bank's trust department in the City's name	<u>48,462,007</u>
Total amount subject to custodial credit risk	<u><u>\$ 49,503,768</u></u>

Investments

Certain investments are covered by the Securities Investor Protection Corporation (SIPC) up to \$500,000, including \$100,000 of cash from sale or for purchase of investments, but not cash held solely for the purpose of earning interest. SIPC protects securities such as notes, stocks, bonds, debentures, certificates of deposit and money funds.

At June 30, 2014, the City's investments (including restricted investments) consisted of the following:

Type of Investment	Fair Value	Investment Maturities (In Years)		
		Less Than 1	1 - 5	6 - 10
Debt Securities:				
Money Market Funds	\$ 612,567	\$ 612,567	\$ -	\$ -
Certificates of Deposits	3,319,859	3,319,859	-	-
U.S. Government Agency Securities	6,416,676	1,996,361	2,210,158	2,210,157
Bond Mutual Funds	29,595,564	-	29,595,564	-
	<u>39,944,666</u>	<u>\$ 5,928,787</u>	<u>\$ 31,805,722</u>	<u>\$ 2,210,157</u>
Other Investments:				
Alternative Investments	8,307,975			
Equity Mutual Funds	110,542,424			
	<u>\$ 158,795,065</u>			

Interest rate risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. *Cash and investments (continued)*

Investments (continued)

Credit risk - The City Investment Policy requires that at least 90% of investments shall at any time be invested in U.S. Treasury or Agency securities, top grade (AAA, AA and A or those with bond insurance) municipal securities, certificates of deposit backed by collateral consisting of U.S. Treasuries or Agencies or covered by FDIC or FSLIC insurance, and repurchase contracts backed by collateral consisting of U.S. Treasuries or Agencies and delivered to the City or held by an independent third party. The policy also allows for investment in uncollateralized Certificates of Deposit of Rhode Island banks. The policy further restricts investments with a maturity of greater than one year to 10% of total investments or \$2,000,000, whichever is lower. The City's Certificates of Deposit all have maturity dates of less than one year. The State of Rhode Island does not have any pertinent laws on investments that apply to municipalities.

Certificates of Deposit – Certificates of Deposit are all insured by FDIC insurance. The weighted average maturity of all certificates of deposit is .39 years. The City intends to hold all certificates to maturity, although they are subject to interest rate risk in the event that they are sold prior to maturity.

The City's investments in money market funds, government securities and bond mutual funds had average ratings as follows by Standard & Poor's.

Average Rating	U.S.		
	Money Market Mutual Funds	Government Agency Securities	Bond Mutual Funds
AAA.....	\$ 612,567	\$ 6,416,676	\$ 29,595,564

Custodial credit risk – The City does not have a formal policy regarding custodial credit risk. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The following City investments are held by the counterparty's trust department or agent but not in the City's name and therefore are subject to custodial credit risk.

	Total	Less Insured Amounts	Subject To Custodial Credit Risk
U.S. Government Agency Securities	\$ 6,416,676	\$ 500,000	\$ 5,916,676

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)**A. *Cash and investments (continued)*****Fiduciary and permanent funds**

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets. Separate investment policies exist as these assets are invested for long-term growth and/or to meet specific funding targets. The policies identify the asset allocation plans and objectives developed by the Commission. The absolute objectives are to achieve growth in the principal value of assets while maintaining a level of stability and liquidity sufficient to ensure the timely payment of obligations, and to achieve the target rate of return as defined by the actuarial rate of return, currently 7.5% for the pension plans, the OPEB Trust, and trust investments per year net of investment expenses, over a full market cycle defined as 5 to 7 years. The policies are used to inform investment managers, consultants and custodians of the Commission's goals, objectives, and restrictions. The policies are also designed to identify and mitigate performance risk. Investments are not restricted to any particular type of investment. The investment managers are held to certain performance standards as compared to an appropriate national index. The current asset allocation plans set minimum, maximum and target allocation percentages of assets. The Large Cap Value and Large Cap Growth performances are benchmarked against the Russell 1000 Value and Russell 1000 Growth Indices, respectively. The Mid Cap performance is benchmarked against the S&P 400 Index. The Small Cap is compared to the Russell 2000 Growth, the International Equity to the MSCI All-World Free Ex-US Index, and the Fixed Income to the Barclays Aggregate Index. Further, the Commission instructs managers to invest the equity portion of the portfolio so as to prevent the returns from underperforming the equity index in any three consecutive quarters. Currently, most of the funds are invested in mutual funds or collective trusts. For mutual funds, the managers are subject to the mutual fund prospectus. The assets are rebalanced quarterly as needed.

Fiduciary and Permanent Fund Investments included in the financial statements as of June 30, 2014 totaled \$148,509,980.

Advances

Advance To	Corresponding Fund	Amount	Description
<u>Nonmajor Funds</u>			
Urban Development	Maritime Fund	<u>\$ 267,459</u>	Loans related to armory building
Total advances to other funds		<u><u>\$ 267,459</u></u>	

The Urban Development Grant Fund (UDAG) loaned the City of Newport \$51,876 to remove seaweed from Easton's Beach. The note is a 15-year note bearing interest at 1.0%. The Parking Fund loaned the Easton's Beach Fund \$320,000 for the purchase of a seaweed harvester. A contribution was received in fiscal year 2009 that reduced the amount of the note by \$49,800. The note is a 10-year note bearing interest at 1.0%. Both loans were fully repaid in fiscal year 2014 when the beach fund was transferred to the general fund.

The Newport Redevelopment Authority transferred the armory building and related debt to the City of Newport Maritime Fund in April 2010. The related debt includes a loan from the City of Newport urban development special revenue fund. The remaining balance of \$267,459 is due to the urban development grant fund only upon sale of the armory building. No interest accrues on the advance.

Nonmajor Business-Type Funds		362,223	-
Nonmajor Governmental Fund		133,110	144,240
Total		<u>\$ 3,660,473</u>	<u>\$ 3,660,473</u>

Transfers are generally programmed amounts used to finance capital assets or for other required activities in other funds.

E. *Changes in long-term obligations*

The City issues general obligation, Qualified Zone Academy Bonds (QZAB) and revenue bonds to provide funds for the acquisition and construction of major capital facilities. Bonds have been issued for both governmental and business-type activities.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. These bonds are generally issued as 20-year serial bonds. Revenue bonds are obligations that pledge the revenues derived from the use of services in that particular fund. These are issued for business-type activities and are generally collateralized by the asset under construction or renovation. The bonds are usually issued as 20-year bonds. The QZAB bond is a 12-year bond, which is supported by annual sinking fund payments to a third-party escrow agent. Changes in bonded debt outstanding during fiscal year 2014 are summarized on the next page as follows:

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

E. *Changes in long-term obligations (continued)*

All long-term liabilities listed under Governmental activities are generally liquidated by the General Fund.

The Water Pollution Control Fund borrowed \$6,595,532 in FY2009 from the state revolving loan fund. Of that, \$995,579 of American Reinvestment and Recovery Act (ARRA) funds will be applied against principal over the life of the 20-year bond. The Water Fund borrowed \$3,300,000 in FY2009 from the state revolving loan fund. \$765,452 of ARRA funds will be applied against principal over the 20-year life of the bond. The annual ARRA offset will be taken into revenue each year the bonds are outstanding.

The City of Newport Water and Water Pollution Control Funds have the following outstanding State Revolving Fund (SRF) revenue bonds and non-SRF revenue bonds all issued through the Rhode Island Clean Water Finance Agency (RICWFA). The bond proceeds are held by RICWFA or their escrow agent. Bonds are issued for a specific purpose and for a total approved amount. The revenue bonds are drawdown bonds whereby the City sends vendor invoices to RICWFA for payment and the City's outstanding bond amounts equal the total of the drawdowns less principal payments per a set amortization schedule. The following schedule shows the amounts of the bonds and the purpose for which it was issued. Each revenue bond issue requires a debt service reserve to be held by the City's escrow agent.

Description	Fund	Year Issued	Total Bond	Amount Drawdown To Date	Debt Service Reserve	ARRA Funding

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

E. *Changes in long-term obligations (continued)*

The City has a \$2,337,000 General Obligation Qualified Zone Academy Bond, Series 2001 dated December 14, 2001, due December 14, 2015, which was used to help finance the construction of Thompson Middle School. The bond may not be prepaid prior to the maturity date. The City is required to make annual sinking fund installments of \$133,110 with the trustee, which will be invested with the bank (purchaser of the bond). The total amount to be deposited into the sinking fund is \$1,863,536. The City is responsible for ensuring that the entire \$2,337,000 is repaid. Therefore, if the sinking fund payments plus investment earnings are insufficient to cover the \$2,337,000, the City will be responsible for the balance due. Current fair market value of the sinking fund is \$1,996,439, which amount is reported in the debt service fund, a nonmajor governmental fund.

Bonded indebtedness on June 30, 2014 matures over fiscal years through 2035 as follows:

Year ending June 30,	Governmental Activities		Business-type Activities	
	Principal	Interest	Principal	Interest
2015	\$ 3,050,000	\$ 1,632,994	\$ 4,889,492	\$ 3,939,951

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

F. Notes payable

Business-type Activities

In 1984, the Redevelopment Agency of Newport, a component unit, purchased a vacant building in an area of the City designed for redevelopment. As part of the financing for this purchase, the State of Rhode Island loaned the Redevelopment Agency \$200,000. The underlying note bears no stated interest rate or maturity and is secured with a mortgage on the building. The Redevelopment Agency turned over the building to the City of Newport Maritime Fund in April, 2010. As of June 30, 2014, \$200,000 was payable. The note is required to be paid only upon the sale of the building.

G. Changes in long-term liabilities:

Long-term liability activity for the year ended June 30, 2014 was as follows:

	Balance July 1, 2013	Additions	Reductions	Balance June 30, 2014	Due Within One Year

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

H. Operating leases

The City leases certain office equipment under multi-year agreements that are subject to annual appropriation. Additionally, the Water Fund assesses the General Fund an annual lease charge of \$434,522 for providing a public fire protection system owned by the Water Fund pursuant to tariffs mandated by the Rhode Island Public Utilities Commission. For the year ended June 30, 2014, the General Fund incurred expenditures of \$434,522 associated with these agreements. The minimum annual lease obligations of the General Fund related to these agreements are \$434,522 until such time as the Rhode Island Public Utilities Commission approves a rate change.

I. Capital leases

The City previously entered into an agreement to lease purchase a new HVAC system for the School Department. Payments of principal and interest are being amortized as follows:

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>
2015	\$ 98,118	\$ 23,840
2016	104,235	20,735
2017	107,435	17,535
2018	110,733	14,237
2019	114,133	10,838
2020-2021	241,898	11,056
	<u>\$ 776,552</u>	<u>\$ 98,241</u>

Equipment under capital leases in capital assets at June 30, 2014 included the following:

Machinery and equipment	\$1,239,457
Less: Accumulated Depreciation	<u>(258,220)</u>
Net	<u>\$ 981,237</u>

Amortization of leased equipment under capital leases is included in depreciation expense.

J. Statutory debt limitations

Rhode Island General Laws cap the amount of each municipality's general obligation bonds that may be outstanding to 3% of its assessed property values. Exceptions apply to bonds financed from non-tax revenues, bonds issued under special acts of the legislature, and special exemptions are granted for other purposes as well. The net assessed value of Newport properties at December 31, 2013 was \$5,330,326,123, limiting the amount of non-expected general obligation bonds outstanding to \$159,909,784. Bonds of \$41,993,536 outstanding at June 30, 2014 are general obligations and subject to the statutory limitation.

IV. DETAILED NOTES ON ALL FUNDS (CONTINUED)

K. Fund balances

The following table details the purposes for which fund balances may be nonspendable, restricted, committed or assigned.

	General Fund	Community Development Block Grant	Permanent Funds	Capital Projects Fund	Other Governmental Funds	Total
Nonspendable:						
Endowments	\$ -	\$ -	\$ 2,481,651	\$ -	\$ -	\$ 2,481,651
Restricted:						
Trust purposes			7,792,741			7,792,741
Education					259,651	259,651
For recreation by donors	99,453					99,453
Planning, urban and economic development					1,914,455	1,914,455
Public safety					787,337	787,337
Community and social services		428,973				428,973
Debt service					1,996,439	1,996,439
Total Restricted	99,453	428,973	7,792,741	-	4,957,882	13,279,049
Committed:						
General government	689,885					689,885
Capital improvements				5,613,718		5,613,718
Total Committed	689,885	-	-	5,613,718	-	6,303,603
Assigned:						
Public improvements	452,243					452,243
Total Assigned	452,243	-	-	-	-	452,243
Unassigned	11,810,021				-	11,810,021
Totals	\$ 13,051,602	\$ 428,973	\$ 10,274,392	\$ 5,613,718	\$ 4,957,882	\$ 34,326,567

The restricted amounts consist of state and federal grants as well as the expendable portion of the trust funds. Funds cannot be spent for any purpose other than that specified by the grantor, trust donor or law.

The committed amounts in the general fund are encumbrances wherein the amounts or service has been ordered but not yet delivered.

The assigned amount in the general fund is the balance of proceeds from the sale of Lenthal School. The Council has assigned those amounts by resolution.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION

A. Risk management

Through its operations, the City is exposed to various risks of loss related to torts, general liability, errors and omissions, and property losses due to theft, damage, or destruction, each of which is insured through a public entity risk pool; and to employee injuries and claims for unemployment, for which the City retains the risk of loss. Terms of collective bargaining agreements also require the City to assume risks of employee financial losses resulting from health and dental catastrophes and death, each of which the City has transferred to commercial insurers.

The City is a member of the Rhode Island Inter-local Risk Management Trust (the "Trust"), a non-profit public entity risk pool which provides insurance coverage to participants in exchange for an annual premium and a pro-rata share of certain administrative expenses. Coverage is provided in accordance with each member's policy, subject to deductibles, through a pooling of risks among participants, supplemented by commercial reinsurance for excess losses. Management believes the Trust's reserves to be adequate to meet all reported claims, as well as an estimate of potential claims for losses incurred but not reported. Accordingly, no accrual has been made for potential liabilities arising from risks once they have been transferred to the Trust.

The City maintains \$2,000,000 of liability insurance per incident and insures property for replacement cost. Settled claims have not exceeded coverage through the Trust in any of the past three years.

The City self insures certain properties for all or a portion of flood insurance. The following list details the replacement cost of the building and/or contents:

Fully Self-insured:

Property	Building Value	Contents/Other Value	Total Value
America's Cup Parking Garage	\$ 4,015,328	\$	\$ 4,015,328
Cardine's Field Restrooms	224,609		224,609
Cardine's Field Storage Building	18,566		18,566
Easton's Beach Storage Building	** 95,836		95,836
Eisenhower Park Structures		53,800	53,800
King's Park Restrooms	127,602		127,602
Long Wharf Harbormaster Shed	39,902	4,051	43,953
Easton's Beach Carousel/Concessions	** 3,408,394	450,000	3,858,394
Gateway Center	3,343,092		3,343,092
Convention Center Canopies	** 1,113,819		1,113,819
	\$ 12,387,148	\$ 507,851	\$ 12,894,999

Remaining properties are fully or partially insured through the National Flood Insurance Program or through the Trust. Deductibles for the National Flood Insurance Program are either \$2,000 or \$50,000. The exposure of partially insured properties is \$12,894,999 less \$10,000,000 per member annual aggregate. The City has not established reserves and believes that the risk of flood damage to all of the self-insured or partially insured properties at any one time is minimal.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. *Pension plans*

The City implemented Statement No. 67 of the Governmental Accounting Standards Board entitled Financial Reporting for Pension Plans. This standard applies to the police and fire pension plans only. The Teachers' Plan and MERS Plan are reported using Statements No. 25 and No. 50.

All eligible employees of the City are covered by one of four pension plans, the Employees' Retirement System of the State of Rhode Island (Teachers' Plan), the Municipal Employees' Retirement System of the State of Rhode Island (Municipal Plan), the Firemen's Pension Plan and the Policemen's Pension Plan. The Teachers' Plan covers all School Department personnel certified by the Rhode Island Department of Education who are or have been engaged in teaching as a principal occupation. The Municipal Plan covers all employees not covered under the Teachers' Plan. However, fire employees and police officers have elected to participate in a single-employer pension plan administered by the City. The Firemen's Pension Plan and Policemen's Pension Plan cover all employees covered under a collective bargaining agreement either with the International Association of Firefighters, Local 1080 or the Fraternal Order of Police, Lodge Number 8. Total covered payroll under all plans during 2014 was \$38,097,950. Total City payroll was \$46,797,228 for the same period.

Teachers' Plan

Plan Description and Administration

The Teachers' Plan is a combined (hybrid) statutory, mandatory, statewide, cost-sharing multiple employer public employee retirement system plus a defined contribution plan administered by the State. The plan provides retirement, death and disability benefits as outlined in Chapters 36-10 and 16-16 of the Rhode Island General Laws. The benefits may be amended by the Rhode Island General Assembly. Financial statements for the plan are issued separately and may be obtained by writing to Employees' Retirement System of Rhode Island, 40 Fountain Street, Providence, Rhode Island, 02903 or by calling (401) 457-3900. Total covered payroll under the plan during 2014 was \$16,002,256, including \$1,058,695 of federally reimbursed payroll.

Contributions

Rhode Island general laws set the contribution rates of participating employees at 10.75% of salary (3.75% to the defined benefit trust and 7.0% to the defined contribution plan) effective July 1, 2012. Actuarially determined contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as a percentage of participants' payroll. The actuarially determined contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1985 over 30 years; (c) interest on the unfunded frozen actuarial liability; and a percentage of payroll contribution into the defined contribution plan. Normal cost is determined using the individual entry age cost method with frozen initial liability. The City participates in the optional Teachers Survivor Benefits Fund whereby both the employer and the employee contribute 1% of the first \$9,600 of each participating employee's salary for survival benefits.

CITY OF NEWPORT, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. Pension plans (continued)

Teachers' Plan (continued)

Contributions

As prescribed by Rhode Island general law, the State pays the entire portion of the actuarially determined contribution attributable to the costs of contributions deferred by the State in prior years, plus 40% of contributions assessed to employers on payroll not reimbursable through federal programs. For fiscal year 2014, contributions were 15.26% of participants' salary (also 23.68% for federally reimbursed salary). This resulted in a contribution rate paid by the State on behalf of City teachers of 8.42%. In accordance with the provisions of GASB Statement No. 24, the City has recorded "on-behalf" payments of \$1,319,752 for amounts paid by the State on behalf of City teachers. The City's contribution rate was 15.26%. The City's estimated and actual contributions to the Teachers' Plan for fiscal years 2014, 2013, and 2012 were \$2,530,748, \$2,424,934, and \$2,274,802, respectively.

Municipal Plan

Plan Description and Administration

The Municipal Plan is a combined (hybrid) agent multiple employer public employee retirement system plus a defined contribution plan administered by the State. The plan provides retirement, death and disability benefits as outlined in Chapters 36-10 and 16-16 of the Rhode Island General Laws. The benefits may be amended by the Rhode Island General Assembly. Financial statements for the plan are issued separately and may be obtained by writing to the Employees' Retirement System, 40 Fountain Street, Providence, Rhode Island, 02903-1854 or by calling (401) 457-3900. For fiscal year 2014, payroll for employees covered under the plan totaled \$11,259,620. As of June 30, 2014, 249 active employees were members of the Municipal Plan.

Contributions

Rhode Island general laws set contributions of participating employees at 6% of salary (1% to the defined benefit plan and 5% to the defined contribution plan). The City participates in an optional cost-of-living provision which assesses an additional 1% of salary to the participants. Annual contributions are actuarially determined for each separate employer and are assessed to each as a percentage of their participating employees' payroll. The actuarially determined contribution into the defined benefit plan is the estimated amount necessary to finance costs of benefits earned by plan members during the year and, where applicable, a payment to amortize the unfunded actuarial accrued liability (UAAL) as of June 30, 1999, over a closed period of 30 years. There are 16 years remaining as of June 30, 2013. The amortization contribution rate is level percentage of payroll required to reduce the UAAL to zero over the remaining amortization period. The estimated contribution is determined using the entry age normal cost method. Unlike in the Teachers' Plan, the State makes no contributions to the Municipal Plan on behalf of the City, nor does it assume any liability for funding pension benefits for the City's participants. The City's required and actual contributions to the Municipal Plan for fiscal years 2014, 2013, and 2012 were \$2,343,262, \$2,045,444, and \$1,803,085, respectively.

B. Pension plans (continued)

Municipal plan (continued)

Funded Status and Funding Progress

The funded status of the plan as of June 30, 2013 was as follows:

Actuarial Valuation Date	(A) Actuarial Value of Assets	(B) Actuarial Accrued Liability (AAL) Projected Unit Credit	(A - B) Under Funded AAL	(A/B) Funded AAL Ratio	(C) Covered Payroll	[(A-B)/C] Underfunded AAL as a Percentage of Covered Payroll
June 30, 2013	\$ 43,938,347	\$ 68,681,188	\$ 24,742,841	64.0%	\$ 10,999,057	225.0%

Actuarial valuations involve the estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress (RSI), immediately following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time, relative to the actuarial accrued liability for benefits.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. Pension plans (continued)

Municipal plan (continued)

Actuarial Methods and Significant Assumptions

The State used the entry age actuarial cost method to determine both the actuarial accrued liabilities and actuarially determined contributions to each member of the plan. Pension assets are valued at their fair value as established by quotations from applicable national securities exchanges. The actuarial value of pension assets is used in the calculation of the actuarial accrued liabilities and funding requirements. The actuarial value of pension assets means that the value is smoothed over 5 years. Valuations of accrued liabilities, pension assets, and actuarially determined contributions for the Municipal Plan are performed annually as of June 30.

Significant actuarial assumptions used in each valuation are summarized as follows:

Investment rate of return:	7.50% net of pension plan investment expense, including inflation
Salary increases:	4.00% annually, plus a service component
Payroll growth rate (for amortization)	3.75% annually
Cost of living adjustments:	2.00%, not compounded
Inflation rate	2.75% annually
Retirement probability	100% at age 75 or upon eligibility

Mortality:

Healthy members – Males: pre-retirement 75% and post retirement 115% of RP2000 Combined Healthy with White Collar Adjustments Mortality Table; Females pre-retirement 75% and postretirement 95% of RP2000 Combined Healthy with White Collar Adjustments Table; Disabled members – 60% of the PBGC Table Va for disabled male members eligible for Social Security disability benefits and 60% of the PBGC Table Via for disabled female members eligible for Social Security

Disability: Probabilities ranging from .06% at age 25 to .98% at age 60

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. *Pension plans (continued)*

Fire pension plan and police pension plan

The City has separately established and administers two defined benefit pension plans; the Firemen's Pension Plan (Fire Plan) and the Policemen's Pension Plan (Police Plan). Each plan is reported as a pension trust fund in the City's fiduciary fund net assets. A separate report on these pension plans is not available; they are audited as part of the City's audit.

Valuation of Investments

Investments are valued at fair value. Securities traded on national exchanges are valued at the last reported sales price. There are no investments of 5% or greater in any one organization. The City does not use an actuarial smoothing process in determining value of assets.

Plan Descriptions

1. Plan Administration. The City's police and fire pension plans are administered internally except that retiree benefits are paid by a third party administrator.

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets.

2. Plan Membership. As of June 30, 2014, membership in each plan was as follows:

	<u>Fire Plan</u>	<u>Police Plan</u>
Active employees hired before July 1, 1984	1	3
Active employees hired on or after July 1, 1984	<u>86</u>	<u>75</u>
Total active employees	87	78
Inactive employees with vested rights	1	0
Pensioners and beneficiaries	<u>122</u>	<u>125</u>
Total plan members	<u>210</u>	<u>203</u>

V. OTHER INFORMATION (CONTINUED)**B. Pension plans (continued)****Fire pension plan and police pension plan (continued)**Plan Descriptions (Continued)

3. Benefits Provided. Each plan is a single-employer defined benefit pension plan which provides retirement, disability and death benefits to its participants. For fiscal year 2014, covered payroll under the plans was \$5,505,579 and \$5,246,624 for the fire and police plans, respectively. Rights to pension benefits become fully vested for fire and police participants after 10 years of service. Police are eligible to retire after 20 years of service, and firefighters are eligible to retire after 25 years of service. Police benefits are equal to 50% of salary with an additional 2.5% for each year of service after 20 years and up to 25 years of service, with the total benefit not to exceed 62.5% of salary. Police retirees who work more than 25 years are entitled to an additional 1.5%, with the total benefit not to exceed 70% of salary. The fire pension plan entitles retirees to benefits equal to 65% of salary for those who retire at 25 years. The percentage increases by 1% per year until the maximum of 70% of salary is attained. Fire employees hired after July 1, 2011 cannot receive pension benefits until they reach the age of 58.

Pre-retirement benefits at a minimum of 25% and 50% of salary are provided to disabled fire and police participants, respectively. However, fire employees are eligible for an additional 2.5% of salary for each year of service in excess of 10 years until a maximum benefit of 62.5% of salary is attained. Surviving spouses under both plans are also eligible for pre-retirement death benefits of 67.5% of salary, subject to a pro-rata reduction for participants having fewer than 20 years of service.

Cost-of-living adjustments are provided to both police and fire retirees. All police retirees and fire retirees that have retired prior to September 30, 2011 are entitled to the same cost of living adjustment as that negotiated by the bargaining unit for active participants. Fire retirees that have retired on or after September 30, 2011 receive a cost-of-living adjustment equal to the Northeast Urban Wage Earner's Consumer Price Index not to exceed 3% in any given year but in no event less than .5%.

4. Contributions. Under terms of their collective bargaining agreements, firefighters are required to contribute 9% of salary and policemen are required to contribute 8% of salary to their respective pension plans. The City establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance a portion of the unfunded accrued liability. The unfunded accrued liability is being amortized over a closed 30 year period, of which there are 17 years remaining. Rhode Island general laws, city ordinances and collective bargaining agreements establish minimum employer funding.

Fire pension plan and police pension plan (continued)

Investment Policy

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets. Separate investment policies exist as these assets are invested for long-term growth and/or to meet specific funding targets. The policies identify the asset allocation plans and objectives developed by the Commission. The absolute objectives are to achieve growth in the principal value of assets while maintaining a level of stability and liquidity sufficient to ensure the timely payment of obligations, and to achieve the target rate of return as defined by the actuarial rate of return, currently 7.5% for the pension plans and the OPEB Trust per year net of investment expenses, over a full market cycle defined as 5 to 7 years. The policies are used to inform investment managers, consultants and custodians of the Commission's goals, objectives, and restrictions. The policies are also designed to identify and mitigate performance risk. Investments are not restricted to any particular type of investment. The investment managers are held to certain performance standards as compared to an appropriate national index. The current asset allocation plans set minimum, maximum and target allocation percentages of assets. The Large Cap Value and Large Cap Growth performances are benchmarked against the Russell 1000 Value and Russell 1000 Growth Indices, respectively. The Mid Cap performance is benchmarked against the S & P 400 Index. The Small Cap is compared to the Russell 2000 Growth, the International Equity to the MSCI All-World Free Ex-US Index, and the Fixed Income to the Barclays Aggregate Index. Further, the Commission instructs managers to invest the equity portion of the portfolio so as to prevent the returns from underperforming the equity index in any three consecutive quarters. Currently, most of the funds are invested in mutual funds or collective trusts. For mutual funds, the managers are subject to the mutual fund prospectus. The assets are rebalanced quarterly as needed. The following was the Commission's adopted asset allocation policy as of June 30, 2014:

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic Equity	50%
International Equity	15%
Fixed Income	25%
Real Estate and Timber	10%

Concentrations - As of June 30, 2014, and during the year then ended, no pension assets were invested in any organization which collectively held 5% or more of the total assets of either plan.

Rate of return - The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 19.04% for the year ended June 30, 2014. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. OTHER INFORMATION (CONTINUED)

B. Pension plans (continued)

Firemen's pension plan and policemen's pension plan (continued)

Actuarial Assumptions (continued)

Discount rate – The discount rate used to measure the total pension liabilities is 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate – The following presents the net pension liability of the City, calculated using the discount rate of 7.50%, as well as what the City's pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.50%) or 1-percentage point higher (8.50%) than the current rate:

	<u>1% Decrease</u> <u>(6.50%)</u>	<u>Current Discount</u> <u>Rate (7.50%)</u>	<u>1% Increase</u> <u>(8.50%)</u>
Net pension liability - police	\$ 39,258,212	\$ 28,354,806	\$ 19,292,378
Net pension liability - fire	62,924,659	51,211,046	41,476,171

Funded Status and Funding Progress (GASB 27)

The funded status of the plans as of July 1, 2014 (the date of the most recent actuarial valuation) was as follows:

C. *Other post-employment benefits (OPEB)*

Plan description

The City of Newport offers family or individual health insurance to retirees and life insurance to police retirees. The plan is reported as an OPEB trust fund in the City's financial statements. The plan does not issue separate financial statements. Employees vest for OPEB when they vest for pension benefits. Retired police employees receive \$25,000 in retiree life insurance. Employees can choose individual or family coverage when active, which is paid by the City. All employees contribute towards the cost of their health insurance, while active and after retirement. If an employee retires prior to age 65, the employee remains in their pre-retirement medical plan from the date of their retirement until age 65. At age 65, non-teachers enter Plan65 unless they are grandfathered in under another medical plan or are Medicare ineligible. AFSCME and NEA employees, police employees hired after July 1, 2009, and fire employees hired after July 1, 2011 are not entitled to Plan65. Medicare ineligible participants remain in the medical plan they chose as active employees. Teachers who are in the "Extended Benefit Plan" contribute 5% of their salary in order to receive Plan65 when eligible. The "Extended Benefit Plan" has been closed to new participants and teachers can opt-out of the "Extended Benefit Plan". New teachers and teachers who opt-out of the "Extended Benefits Plan" do not receive any City funded benefits once they reach age 65.

Summary of significant accounting policies and plan asset matters

Basis of Accounting

The OPEB trust fund financial statements are prepared on the accrual basis of accounting. Contributions are recognized when they are due, pursuant to formal commitments and contractual requirements. Investment income is recognized when earned. Expenses (benefits and administration) are recognized when they are due and payable in accordance with terms of the plan.

Valuation of Investments

Investments are valued at fair value. Securities traded on national exchanges are valued at the last reported sales price. There are no investments of 5% or greater in any one organization.

Classes of Employees Covered

As of July 1, 2014 membership data was as follows:

Active employees	623
Retirees	<u>532</u>
Total plan members	<u>1,155</u>

Benefit provisions and contributions

A portion of health insurance premiums is borne by the City, dependent upon each retiree's covered group, date of retirement and credited service. For members covered under the Police Pension Plan retiring after June 30, 1987, the City pays 50% of premiums plus an additional 5% of premiums for each year of service between 11 and 20 years, until 100% is paid. Retirees prior to that date are responsible for premiums for each year between 11 and 25 years, until 100% is paid. Employees hired after July 1, 2009 are not eligible for Plan65. For members covered under the Fire Pension Plan that retired prior to September 12, 2007, the City pays 100% of health insurance premiums for members, provided that the retiree was eligible for retirement (25 years of service) at the date of separation from service. Members that retire after September 12, 2007 contribute 1% of their pension benefit towards the cost of retiree health insurance. For retirees with less than 25 years of service, the City contribution is reduced 4% per year of service less than 25. Members hired after July 1, 2011 are not eligible for Plan65. Premiums for retirees of both the Teachers' Plan and the Municipal Plan are fully paid by the City (less a retiree premium share) until age 65, provided the retiree was eligible for retirement at the time of separation from service. The City pays for a \$25,000 life insurance policy for retired police with at least 10 years of service, and for a temporary (until age 65) \$50,000 life insurance policy for retired teachers. Members of each group may elect dental and life insurance coverage at their expense.

Annual OPEB cost and net OPEB obligation

The City's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation.

Annual required contribution	\$ 7,201,977
Interest on net OPEB obligation	453,362
Adjustment to annual required contribution	<u>(350,536)</u>
Annual OPEB cost (expense)	7,304,803
Contributions made	<u>7,836,934</u>
Increase (decrease) in net OPEB obligation	(532,131)
Net OPEB obligation - July 1, 2013	<u>6,044,824</u>
Net OPEB obligation - June 30, 2014	<u><u>\$ 5,512,693</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the previous nine years is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2006	\$ 9,706,604	53.9%	\$ 4,466,938
June 30, 2007	9,282,550	75.0%	6,756,362
June 30, 2008	9,997,870	72.3%	9,521,806
June 30, 2009	10,615,386	104.6%	9,037,637
June 30, 2010	9,243,181	121.6%	7,429,179
June 30, 2011	11,191,505	90.0%	8,420,493
June 30, 2012	9,519,080	107.7%	7,678,173
June 30, 2013	7,687,252	121.2%	6,044,824
June 30, 2014	7,304,803	107.3%	5,512,693

CITY OF NEWPORT, RHODE ISLAND
 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

V. **OTHER INFORMATION** (CONTINUED)

C. ***Other post-employment benefits (OPEB) (continued)***

Funded status and funding progress

The funded status of the plan as of July 1, 2014 (the date of the most recent actuarial valuation) was as follows:

Actuarial Valuation Date	(A) Actuarial Value of Assets	Actuarial Accrued Liability (AAL) Projected Unit Credit	(A-B) Under Funded AAL	(A/B) Funded AAL Ratio	(C) Covered Payroll	Under Funded AAL as a Percentage of Covered Payroll
July 1, 2014	\$ 34,805,533	\$ 118,221,315	\$ 83,415,782	29.4%	\$ 38,097,950	219.0%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial liabilities for benefits.

Actuarial methods and assumptions

The accompanying schedules of employer contributions present trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

V. OTHER INFORMATION (CONTINUED)**C. *Other post-employment benefits (OPEB) (continued)*****Actuarial methods and assumptions (continued)**

The projected unit credit cost method was used in the July 1, 2014 actuarial valuation. Actuarial assumptions included a 7.5% investment rate of return (net of administrative expenses). Only assets that have been contributed to the OPEB Trust are considered available for liabilities for purposes of the valuation. Assets are valued at Fair Market Value. The actuarial assumptions for healthcare cost trend is growth of 5.2% for 2014, 5.7% for 2015, 4.9% for 2016, and ultimately 3.8%. The actuarial assumption for inflation is 2.75%. The UAAL is being amortized over a closed thirty year period using a level percent of pay. The City is in year 23 (remaining) of the amortization schedule.

D. *Contingencies*

The City is involved in several lawsuits and claims. Both City officials and their legal counsel are unable to express an opinion as to the ultimate outcome of the cases, and no provision for loss has been made in the accompanying financial statements. It is the opinion of both the City officials and their legal counsel that the results of the cases would have no materially adverse effect on the City's financial position.

In June 2012, certain retiree groups and unions representing state and municipal employees who maintain they are current beneficiaries of the Employees' Retirement System of Rhode Island (ERSRI) commenced five separate lawsuits in State court challenging the Rhode Island Retirement Security Act of 2011 ("RIRSA") enacted by the General Assembly. In each of the five cases, the plaintiffs alleged that RIRSA violates the Contract Clause, the Takings Clause and the Due Process Clause of the Rhode Island Constitution. In addition, the Rhode Island Public Employees' Retirement Coalition v. Chafee, C.A. No. 12-3166 case, the plaintiffs also allege counts for promissory estoppel and breach of contract. On January 2, 2013, Superior Court judge presiding over the cases involving challenges to enacted pension reforms ordered the parties to participate in mediation. A settlement agreement was reached between the parties but could only move forward if each and every participating union approved the deal. The police union members rejected the agreement in April 2014 prompting mediation to fail. The Superior Court judge agreed on December 2, 2014 to send the cases to a jury trial, which is scheduled for April 2015. The parties continue to work toward a settlement that will be acceptable to all participating members and State and local officials. An adverse judgment to the State rendered in the pension litigation and the impact to the City of Newport has not been determined, but could significantly increase the unfunded liability and the City's actuarially determined annual required contribution under the plans with ERSRI and MERS.

E. *On-Behalf Payments*

The amount recognized in the general fund intergovernmental revenues and education expenditures for contribution made by the state on-behalf of the City's teachers to the State Employees' Retirement System of Rhode Island was \$1,319,752.

V. **OTHER INFORMATION (CONTINUED)**

F. Transfer of Operations

The Easton's Beach fund (enterprise fund) was closed into the operations of the City's general fund effective July 1, 2013. Capital assets were transferred to the capital projects fund at net value. The Beach fund has a loss on disposal from operations. There are no corresponding entries in the general or capital funds because they are governmental funds and do not report capital assets. The transfer is recorded as a contribution of \$2,463,956 in the governmental column of the government-wide statements.

Notes to Schedule

Valuation Date: July 1, 2012

Actuarially determined contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization period	17 years
Asset valuation method	Fair value
Inflation	3%
Salary increases, including longevity	Fire plan - 2.75% first 10 years and 3.5% thereafter. Police plan 3.0%
Investment rate of return	7.5%, net of pension plan investment expense, including inflation
Retirement age	Police members who have completed 20 years of service may retire Fire members who retired prior to July 1, 2011 may retire with 20 years of service and those who retire on or after July 1, 2011 with the earlier of age 58 or 30 years of service
Mortality	RP-2000 Combined Healthy Mortality Table, applied on a fully generational basis using Mortality Projection Scale AA
Cost-of-living increase	Police plan - 3% annually Fire plan - 2.75% first 10 years. Members retiring prior to 8/21/11 3% thereafter. Members retiring after 8/21/11 Bureau of Labor CPI for Northeast Urban Wage Earners, not exceeding 3% or less than .05%.

Supplemental Schedules

General Fund

The General Fund is composed of four separate funds. Schedules 1 and 2 show activity from the City's general operating fund only. Schedules 3 and 4 are General Fund combining schedules which combine four separate funds into one General Fund.

The City's general operating fund is used to account for all activities of the City, except those required to be accounted for in another fund. The City's general operating fund accounts for the normal recurring activities of the City (i.e., general government, public safety, public works, health, social services, recreation, etc.). These activities are funded principally by property taxes, user fees and grants from other governmental units. This fund is under the control of the City Council.

The School Unrestricted Fund is under control of the elected School Committee and is used to account for all activities of the school except for those required to be accounted for in the School Restricted Fund (primarily federal and state aid).

The City's Property Acquisition Fund is used to account for proceeds from the sale of City-owned properties. These funds are assigned by Council resolution for one-time expenditures or capital improvements.

The City's Gift Fund is used to account for monies given by outside donors for specific activities provided by the City. Examples include basketball tournaments, evening and children's programs and public safety equipment. These funds are considered restricted by donors.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

School Restricted Fund

This fund is used to account for educational grants that are restricted by the federal government or the State of Rhode Island for specific programs.

UDAG Fund

This fund is used to account for urban development grant activities.

State Grants Fund

This fund is used to account for grants received from the State of Rhode Island that are restricted for specific programs or purposes.

Office of Economic Adjustment (OEA) Grant Fund

This fund is used to account for activities funded by the OEA grant and in-kind services for specific purposes.

Bramley Bill Fund

This fund is used to account for activities funded by grants and private donations for specific purposes.

Debt Service Fund

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Nonmajor Proprietary Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the City’s Council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the City’s Council has decided that periodic determination of net income is appropriate for accountability purposes.

Maritime Fund

This fund is used to account for the activity associated with the City’s harbor operations.

Easton’s Beach Fund

This fund is used to account for the activity associated with the City’s beach operations.

Parking Operations Fund

This fund is used to account for the activity associated with the City’s parking operations.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the City in a trustee capacity for individuals, private organizations or other governments.

Pension Trust Funds

A fiduciary fund type used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans.

The City has two pension plans covering police and fire department employees. Substantially all of its other employees, except teachers, are covered by the Municipal Employees' Retirement System of the State of Rhode Island (Municipal Plan). Teachers are covered by the Employees' Retirement System of the State of Rhode Island (Teachers' Plan). The Firemen's Pension Plan and the Policemen's Pension Plan are contributory defined benefit plans.

Other Post-Employment Benefit Trust Fund

This fund is used to account for post-employment benefits provided to eligible retirees of the City.

Private-Purpose Trust Funds

These funds are used to account for and report all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

Agency Funds

Agency funds are used to report resources held by the reporting government in a purely custodial capacity (assets equal liabilities).

Student Activity Funds

These funds are used to account for expenditures for educational extracurricular activities at various schools. Financing is provided by individual fundraising projects and private donations.

Newport Municipal Charitable Improvement Fund, Inc.

These funds are used to account for expenditures for municipal improvement projects. Financing is provided by fundraising and private donations.

Statistical Section

This part of the City of Newport, Rhode Island's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	<u>Page</u>
<u>Financial Trends</u> (Tables 1-4)	112
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
<u>Revenue Capacity</u> (Tables 5-7)	117
These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	
<u>Debt Capacity</u> (Tables 8-11)	120
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
<u>Demographic and Economic Information</u> (Tables 12-13)	124
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
<u>Operating Information</u> (Tables 14-16)	126
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

(Concluded)

(1) - General government service charges increased significantly in FY 2005 in the following categories:

- Management and Computer Processing Charges increased by \$277,000
- Fees and charges associated with the sale of residential and commercial property in the City increased by \$340,000
- Fees for the use of vehicles increased in the capital fund by \$285,000

(2) - Reduction in claims and judgments; reduction in the use of salary reserves as a result of open contracts

(3) - Increase in water rates of 20%

(4) - Realized and unrealized losses in permanent fund due to significant market declines

The City combined the recreation division with public services in FY2014; The City closed Easton's Beach operations (a business-type activity) into governmental activities in FY2014; The City split the planning, zoning and inspections division into two divisions in FY2014.

Notes:

Capital project fund balance depends on timing of state and federal reimbursements and type of temporary or permanent debt that may exist. These items cause the fund balance to fluctuate from year to year.

The reduction of general fund balance in FY 2005 was due to the use of appropriated fund balance for capital improvements and a projected school deficit.

(1) - The School Unrestricted Fund was combined with the City's General Fund, Property Acquisition Fund and Gifts Fund in FY2012

Notes:

* Contributions were for renovations to the Thompson Middle School in FY 2000

** Federal and state grants to the schools were significantly higher

*** Local donations and grants to the schools vary from year to year

^ Public Safety expenses were significantly higher in FY 2004 because pension expenses related to public safety were reclassified to here from pension expenses

(1) Reclassified school restricted revenues from donations to other revenues

(2) Increase in loans and grants made from UDAG monies for Ranger Road Infrastructure and The Opera House

(3) Reorganization that moved parks and grounds into public services

The City combined the recreation division with public services in FY2014; The City closed Easton's Beach operations (a business-type activity) into governmental activities in FY2014; The City split the planning, zoning and inspections division into two divisions in FY2014.

Notes:

The City's total levy cannot exceed 4.00% of the prior year's total levy

The City of Newport has no overlapping debt nor does it collect taxes for any other entity.

The City switched to a two-tiered tax in FY2002

The City had a full revaluation of real property in 2010 (effective 2011). The full revaluation is required by state law every 9 years. Statistical updates are required every 3 years.
