

The City of Newport utilizes a web based mass notification system, CodeRed®

Residents and businesses are welcome and encouraged to enter their contact information for home, business, and mobile phones, TDD/TTY requirements can all be entered in the system. Unlisted numbers will be kept in strict confidence and the City will not share any information with any third party.

Mass Notification System

This system will only be used for emergencies. The system can issue a telephone message, text message, and/or an email message. The type of message will be up to you.

The secure, customized Community Notification Enrollment (CNE) page allows residents and businesses to add or update their contact information to ensure they will be included when a message is sent - unlisted numbers, mobile numbers, TDD/TTY requirements can all be entered.

[Click here](#) or the CodeRed® logo above to enter the Enrollment Form.

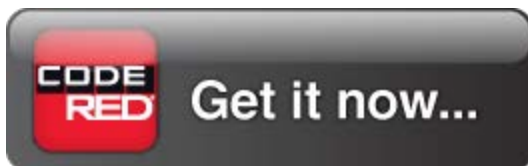

It is important for city residents and businesses to register, especially if they use unlisted numbers, cell phones, or VOIP. Those who do not register their address and phone number may not be notified with CodeRED ® in an emergency.

Registration is confidential, free, and easy. You can opt out at any time.

If you have a friend or relative that does not have access to the Internet please ask them if they would like you to enter their information for them.

After you enter your information into the CodeRed website remember to also enter the CodeRed phone number 866 -419-5600 into your phone so when a message is received you will know it is from CodeRed.

The link below will allow citizens to download the CodeRED Mobile Alert app.
