

**Morton Ave**  
**06-8758-OF**

On 3/16/06 I received a complaint about vehicles speeding on Morton Ave.

- 4/12/06      Asked Traffic Officers to monitor vehicle speeds on Morton Ave
- 4/26/06      Deployed the SMART VMS trailer to Morton at Morton Park facing  
Thames. A lady passing by told me it was "about time" something was  
done. I told her I haven't received a single complaint on this street for  
three years. She complained that officers are always on Memorial Blvd,  
I said that is correct because we have a lot of accidents there. We have  
had only four accidents on Morton since May of 2002.
- 5/1/2006     Monitored traffic and stopped one vehicle for driving past the sign at 35  
mph, issued summons.
- 5/10/06     Four warnings issued from 1130 to 1200
- 5/11/06     No violations 0945 to 1015
- 6/7/06      Two vehicles stopped for speeding, warning issued
- 6/12/06     1030 to 1115, three speed warnings issued.

There have only been four accidents on Morton Ave in the past four years.
