Washington Street CSO Facility Force Main Replacement
To Start the Week of November 26th

The replacement of approximately 500 feet of 10" sanitary sewer force main from the Washington Street Combined Sewer Overflow (CSO) Treatment Facility at 25 Washington St. easterly under the Gateway parking lot is scheduled to begin the week of November 26th. East Coast Construction Co. will be performing the work. Several repairs were made to the force main during the last year and the replacement is now required. No work is scheduled in the area of the recent improvements made by RIPTA.

The work is scheduled to be completed in 2-3 weeks. The trench will be temporarily paved with permanent restoration in Spring 2019.
