Petition of Cheryl Chandler

Petitioner seeks permission to construct an above-ground pool in the rear yard of the property.

The lot contains approximately 9,307 sq. ft. of land and is a slightly non-conforming lot of record. The use of the property is that of a single-family dwelling.

The pool conforms to all setback requirements. The resulting lot coverage is minimal and will not have an adverse impact on the abutting properties.

Zoning History
No recent history.

What provisions of the Comprehensive Land Use Plan are the applicable to this project?

**Answer:**

---
What special conditions and circumstances exist which are peculiar to the land, structure or building involved, which are not applicable to other lands, structures or buildings in the same district?

None that I am aware of.

Explain how the literal interpretation of the provisions of this zoning code deprive the applicant of rights commonly enjoyed by other property owners in the same district under the provisions of this zoning code?

None that I am aware of.

Explain why this is the minimum variance that will make possible the reasonable use of the land, building or structure.

To enjoy the outdoor summer weather.
The Zoning Boards Role

Special use permits shall be granted only where the zoning board of review finds that the proposed use or the proposed extension or alteration of an existing use is in accord with the public convenience and welfare, after taking into account, where appropriate:

1. The nature of the proposed site, including its size and shape and the proposed size, shape and arrangement of the structure;

2. The resulting traffic patterns and adequacy of proposed off-street parking and loading;

3. The nature of the surrounding area and the extent to which the proposed use or feature will be in harmony with the surrounding area;

4. The proximity of dwellings, churches, schools, public buildings and other places of public gathering;

5. The fire hazard resulting from the nature of the proposed buildings and uses and the proximity of existing buildings and uses;

6. All standards contained in this zoning code;

7. The comprehensive plan for the city.

The burden of proof in a special-use permit application is on the applicant. This means that if the applicant fails to present adequate competent evidence to prove the applicable standard for issuing a special-use permit has been met, the board must deny the application.

In granting a variance, the zoning board of review shall require that evidence of the following standards be entered into the record of the proceedings:

a. That the reasons set forth in the application justify the granting of the variance and that the variance, if granted, is the minimum variance that will make possible the reasonable use of the land, building or structure;

b. That the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare, and will not impair the intent or purpose of the zoning code or the comprehensive plan upon which this zoning code is based;

c. That the hardship from which the applicant seeks relief is due to the unique characteristics of the subject land or structure and not due to the general
characteristics of the surrounding area and is not due to a physical or economic disability of the applicant.

d. That the hardship is not the result of any prior action of the applicant and does not result primarily from the desire of the applicant to realize greater financial gain.

e. That the hardship that will be suffered by the owner of the subject property if the dimensional variance is not granted shall amount to more than a mere inconvenience. The fact that a use may be more profitable or that a structure may be more valuable after the relief is granted shall not be grounds for relief.

By signing below, I hereby attest that the information provided is accurate and truthful. I also attest that I have read the section entitled “The Zoning Board’s Role”.
