Lot Coverage (%)	31.2%	20%	33.0%
Dwelling Units	2	2	2
Parking (# of spaces)	2	2	2

What special conditions and circumstances exist which are peculiar to the land, structure or building involved, which are not applicable to other lands, structures or buildings in the same district?

Lot size is only 3,867 while being held to the standards
of a 10,000 SF lot size. Existing house setbacks are very close
to compliant.

Explain how the literal interpretation of the provisions of this zoning code deprive the applicant of rights commonly enjoyed by other property owners in the same district under the provisions of this zoning code?

The owner is looking to move back into this house as his primary residence and would like to expand the third floor for a master suite and home office. The owner intends to restore the existing front porch and completely renovate the existing deteriorating structure.

Explain why this is the minimum variance that will make possible the reasonable use of the land, building or structure.

No increase to any of the existing setbacks.

Only a 64 SF addition to the lot coverage.

No change to the existing height.

The Zoning Boards Role

In granting a variance, the zoning board of review shall **require** that evidence of the following standards be entered into the record of the proceedings:

- a. That the reasons set forth in the application justify the granting of the variance and that the variance, if granted, is the minimum variance that will make possible the reasonable use of the land, building or structure;
- b. That the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare, and will not impair the intent or purpose of the zoning code or the comprehensive plan upon which this zoning code is based;
- c. That the hardship from which the applicant seeks relief is due to the unique characteristics of the subject land or structure and not due to the general characteristics of the surrounding area; and is not due to a physical or economic disability of the applicant; and

- d. That the hardship is not the result of any prior action of the applicant and does not result primarily from the desire of the applicant to realize greater financial gain.
- e. That the hardship that will be suffered by the owner of the subject property if the dimensional variance is not granted shall amount to more than a mere inconvenience. The fact that a use may be more profitable or that a structure may be more valuable after the relief is granted shall not be grounds for relief;

By signing below, I hereby attest that the information provided is accurate and truthful. I also attest that I have read the section entitled "The Zoning Board's Role".
